## HiSource TagmaStore Adaptable Modular Storage Product/Workgroup Modular Storage Documentation Library

### **Welcome**

HiSource is an HDS developed tool that manages our Online Documentation and allows it to be viewed from Windows<sup>®</sup> 95, Windows<sup>®</sup> 98 or Windows NT<sup>®</sup>/2000<sup>®</sup>.

This CD runs under HiSource and allows the **Product Documentation Library** to be managed and viewed. For more information see the HiSource Product Description.

---

*HiSource is a licensed program, see page [3](#) for more information regarding the HDS program license and book agreements.*

---

### **HiSource V1.F New Features**

HiSource no longer requires a CD ID to be entered to install the CD. Upgrades from V1.E will still request a CD ID – please just enter the CD number (i.e., HL206-06).

## HiSource Program Description

HiSource organizes HDS documentation into product related catalogs called bookshelves. HiSource allows a specific item or document to be selected from the active bookshelf to be viewed. Upon selection of the item, HiSource calls the associated viewer.

A bookshelf is composed of all the books (documents) associated with a product line or other designated discriminator. The bookshelf configuration identifies the name and description of the books. If multiple bookshelves are defined or installed within HiSource an open bookshelf function (Ctrl+B) allows switching from the currently selected or active bookshelf.

To open a book either select the book by clicking once and using the Ctrl+O key combination, or simply double-click the book. The book is then read and displayed by the appropriate viewer.

Adobe Acrobat Reader™ is included on the CD. It will automatically be used if the user does not already have Reader installed.

See the HiSource Installation and Operation Notes in the HiSource Bookshelf for more information.

## TRADEMARKS

HiSource is a trademark of Hitachi Data Systems Corporation.

Windows®95/98 and Windows NT®/2000® are registered trademarks of Microsoft Corporation.

Acrobat Reader is a trademark of Adobe Systems Incorporated.

## OTHER CUSTOMER DOCUMENTATION

### PRINTED DOCUMENTS

Most documents on this CD-ROM or the HiSource Customer Documentation Library (CD-98HB001-25) CD can be ordered through your HDS representative.

### PREVIOUS RELEASES

This release replaces and supercedes the HiSource TagmaStore AMS/WMS Product Documentation Library, CD-00HL206-08.

### DOCUMENTATION ON THE INTERNET

Most of the Product Descriptions, Feature Flyers and White Papers are available on our Internet site [www.HitachiDataSystems.com](http://www.HitachiDataSystems.com).

## Why register?

Registering creates a subscription so that subsequent CDs will be shipped directly to you.

Registering allows an email notification of updated documents available, and activates the Update Manager allowing you to update directly through HiSource with an internet connection.

Registration is simple. Use the Options-Registration function to fill in the information.

Send via email the HiSource.RIF file located in the HiSource\notes directory.

## Comments on HiSource

Send comments or questions about either HiSource or our documentation to [Comments.HiSource@HDS.COM](mailto:Comments.HiSource@HDS.COM).

## HiSource License Agreement

To view the HiSource License Agreement or HDS Electronic Books Agreement open the HiSource Bookshelf and double-click on the desired book.
