WHAT TO EXPECT IN THE FUTURE...

- **Updates:** The Sun Developer Software subscription is designed so that when any of the standard products included in this kit change or are revised, you'll automatically receive the new version in your next update.
- **Free Promotions:** In most updates, we will include various free promotions and sample software for you to try at no obligation.
- **Pre-Release Software:** Your subscription also gives you the opportunity to participate in software Early Access (pre-release) programs to sample software before it is formally released by Sun; we will contact you when these opportunities become available.
