

# IA-64 Software Programs Overview

**Mike Pope**

**Director of Enterprise Programs  
Intel Architecture Content Group  
Intel Corporation**

August 31, 1999

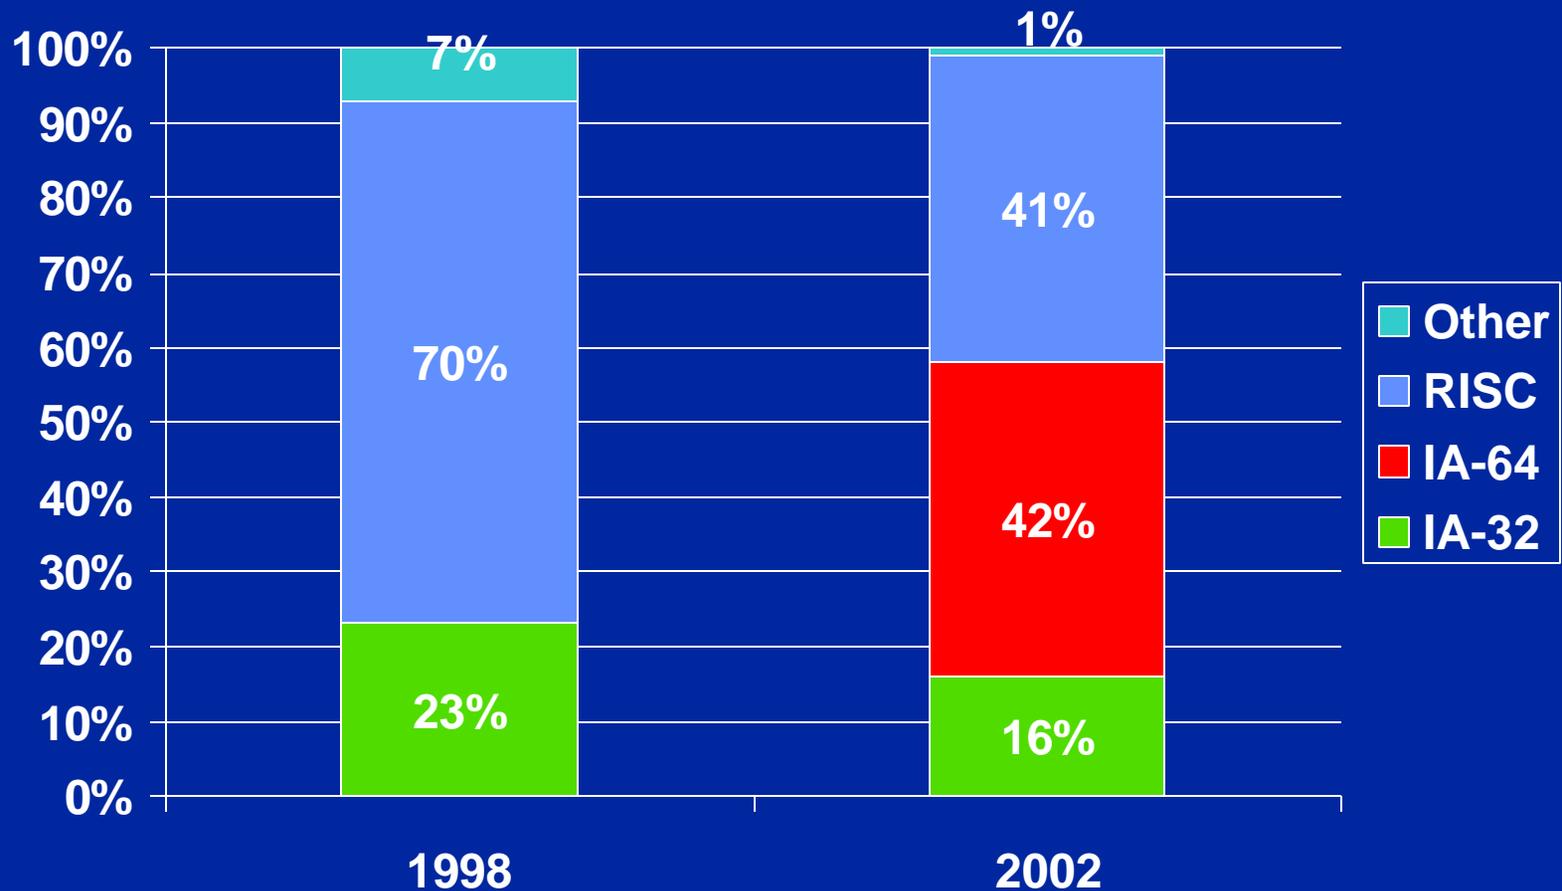

# Agenda

- IA-64 Server & Workstation Strategy
- IA-64 Software Programs
- Leading OSVs/ISVs IA-64 Status
- Call to Action

# IA-64 Server Opportunity

WW server units >\$25K

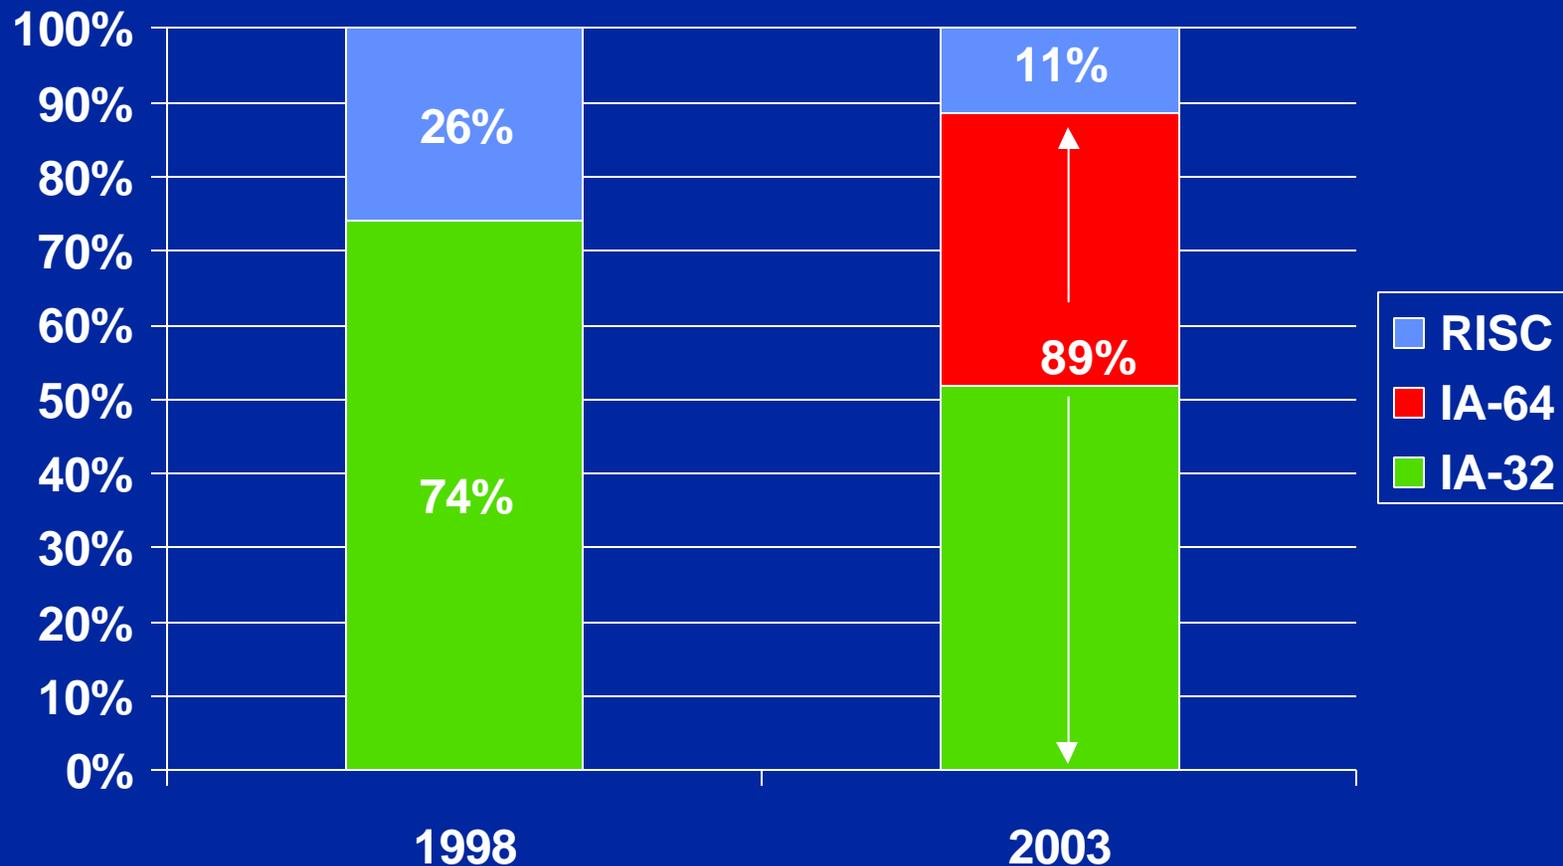

Source: IDC Server Market Review & Forecast 10/98

# IA-64 Workstation Opportunity

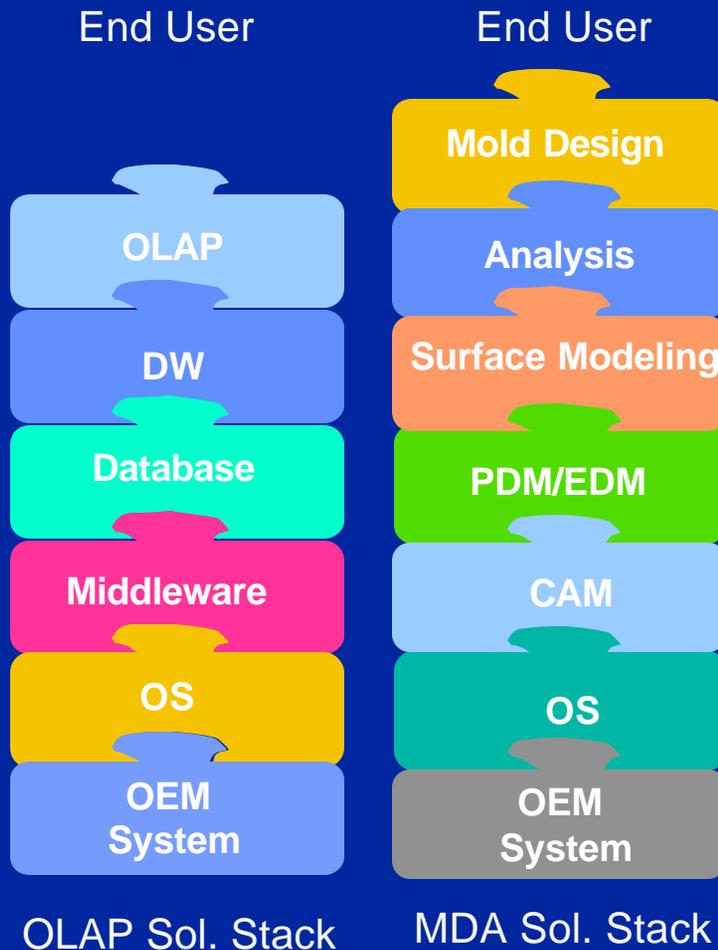

## Workstation Market Segment Growth (Units Shipped)

Source: IDC WS Review and Forecast, 1998-2003  
& Intel Forecast 1999

# Solution Stacks

## • Solution Stacks for Itanium™ :

- ◆ Demonstrate IA-64 benefits
- ◆ Offer high volume opportunity
- ◆ Emerging as key segments for e-business solutions

Get Real Solutions to Launch

# Server Solution Stacks

## Business Intelligence

- Data Mining
- Data Visualization
- Data Warehousing
- OLTP

## ERP/Extended ERP

- CRM
- Supply Chain Management

## E-Commerce

- E-Store front Catalog
- Online Procurement

## Telephony/Security

**IA-64**

Scalability

64-bit Addressing

FP Performance

Performance Headroom

**IA-32**

## Consolidate Messaging

- Messaging/Collaboration

## Internet Infrastructure

- Application Server
- Directory Server
- Proxy/Cache Server
- Web Server

## Telephony/Security

# Workstation Solution Stacks

## Digital Content Creation

- Video Editing
- Compositing/Effects
- 3D Animation
- 3D Rendering

## E-Business & Finance

- Emerging Services
- Risk Analysis

**IA-64**  
Scalability  
64-bit Addressing  
FP Performance  
Performance Headroom

**IA-32**

## Scientific/Engineering Applications

- Computer Aided Design
- Electronic Design Automation
- Finite Element Analysis
- Fluid Dynamic Solutions

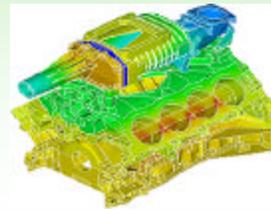

DCC

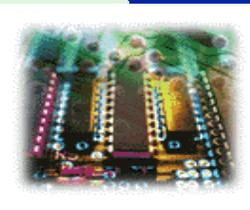

Finance

MDA

EDA

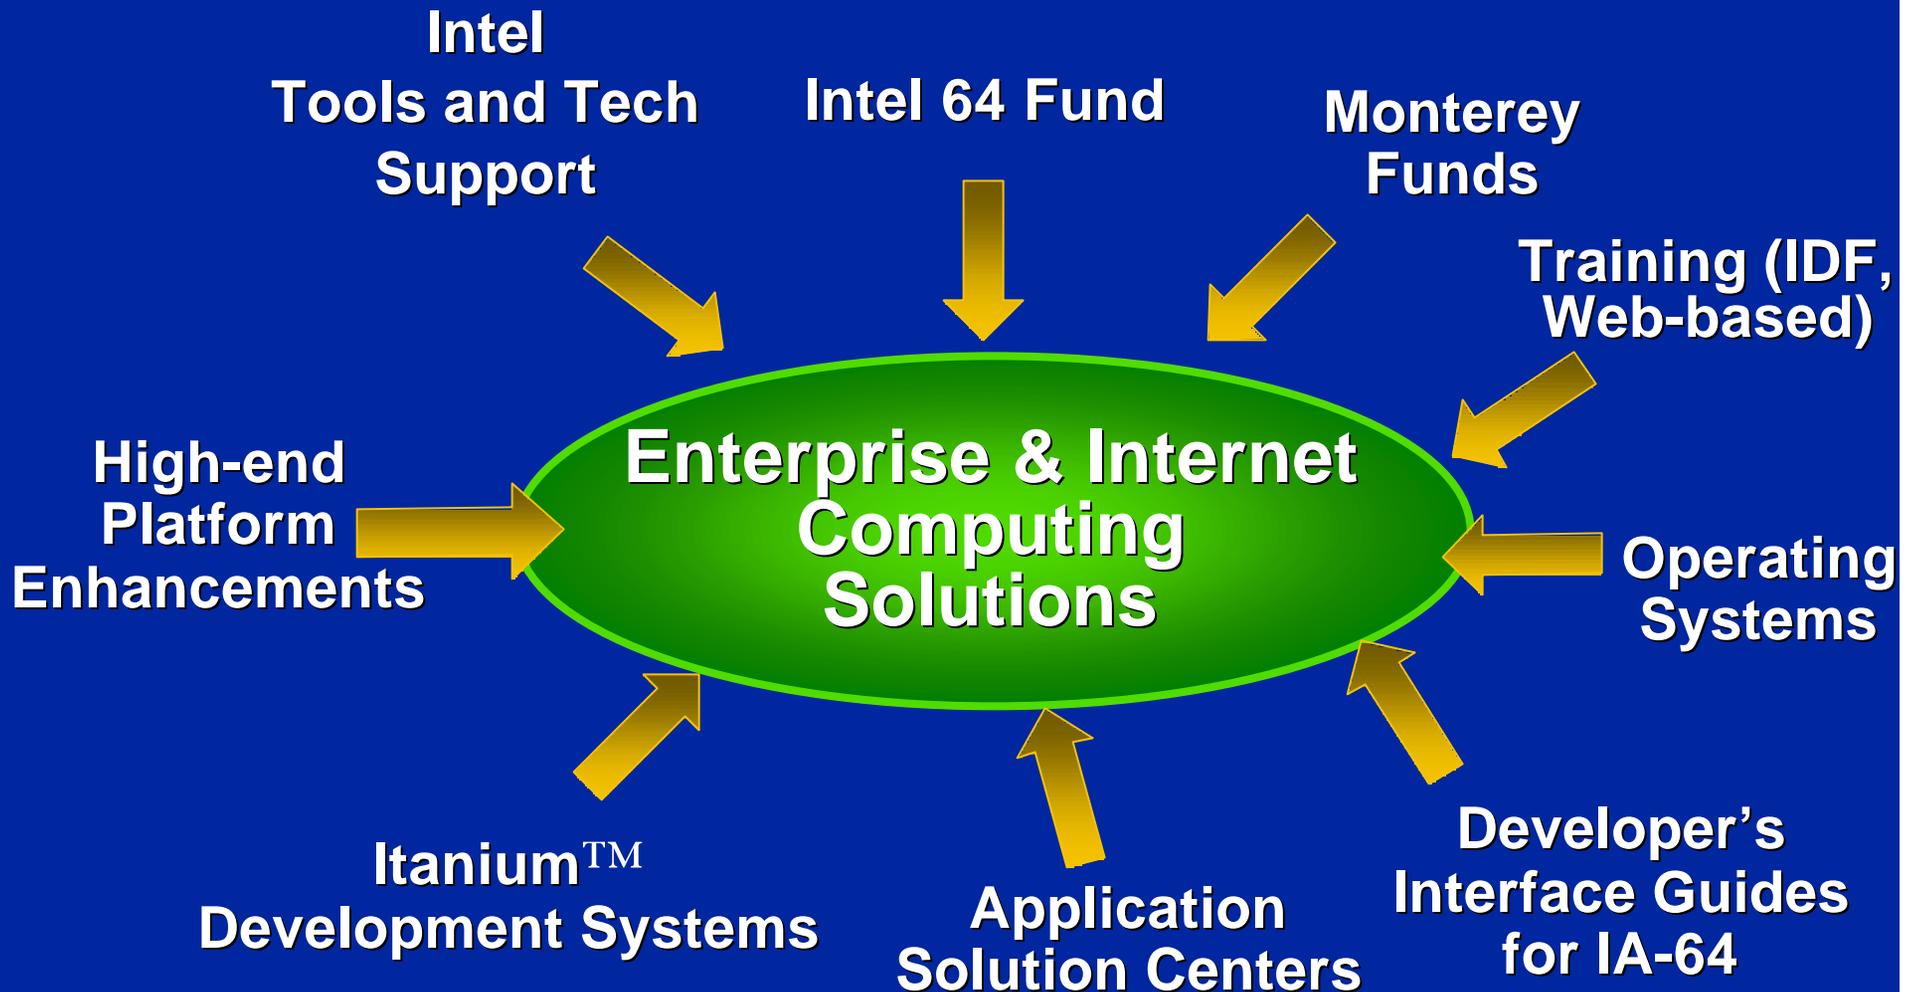

# Agenda

- IA-64 Server & Workstation Strategy
- ➔ ● IA-64 Software Programs
- Leading OSVs/ISVs IA-64 Status
- Call to Action

# IA-64 Developer Resources

**More to Come...**

# IA-64 Developer Enabling Model

High	Segment Leaders	Direct Support, SDKs, SDVs, ASCs, Direct Training, Marketing Inclusion, Launch Presence, Demo Support, Access to private web site, DIG, IDF
Med	Emerging Companies Dependency Apps	SDKs access, SDVs access, Training, Engineering Support, Intel 64 Fund, Potential Demo Support, Access to private web site, DIG, IDF, ASCs
Low	All Others	Web Site Access, Intel 64 Fund, Limited SDV access, Web-based Training, IDF, Potential presence on Intel web site

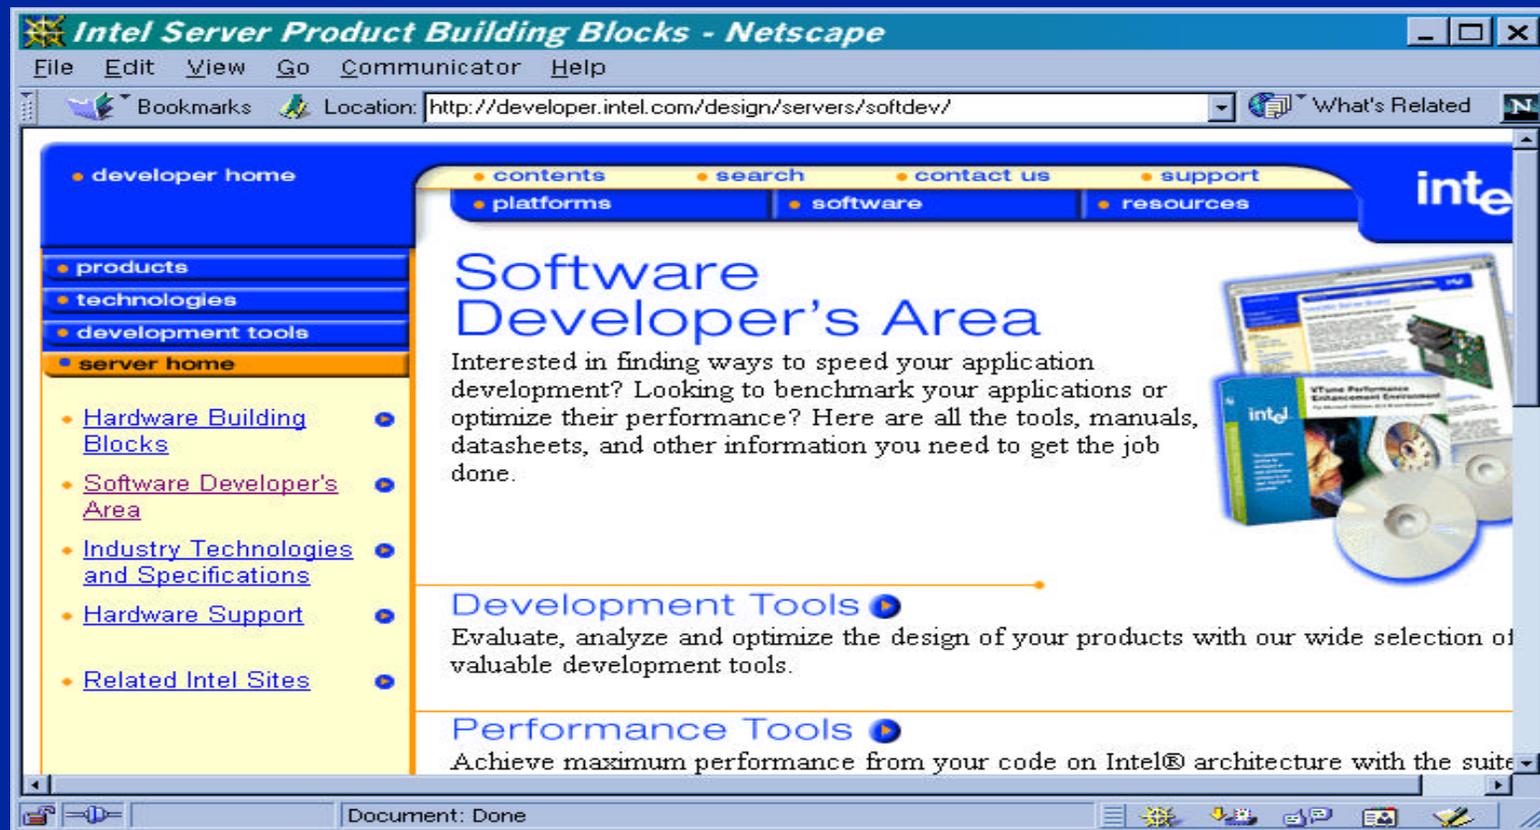

# Web-based Developer Information

- IA-64 Home Page  
(<http://developer.intel.com/design/IA64/>)
  - ◆ Links to public technical documents, web based training, etc.

# Web-based Developer Information

- New software developer site for ISVs  
(<http://developer.intel.com/design/servers/softdev/>)

# Application Solution Centers

- IA-64 architecture/tools training
- Assistance in porting effort

<http://developer.intel.com/software/asc>

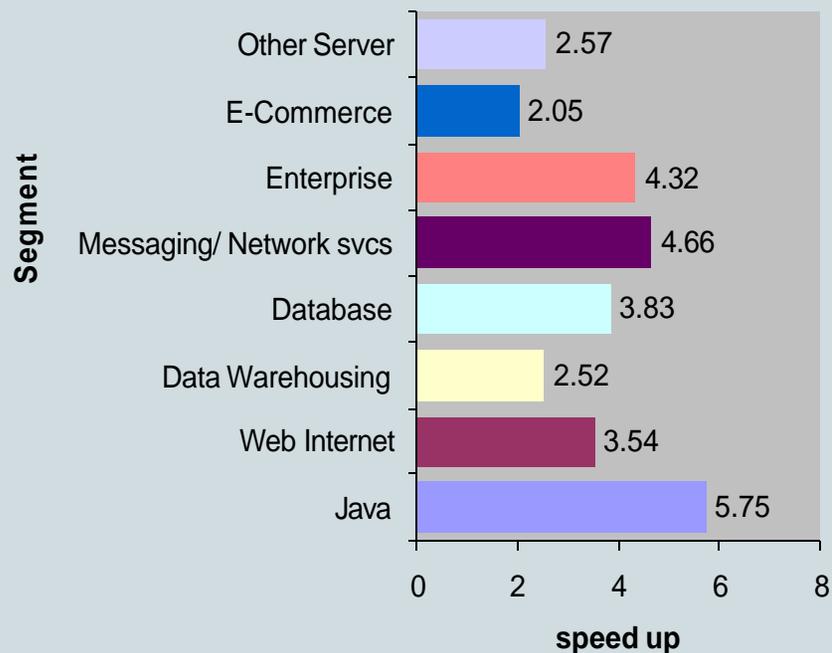

\*Other brands and names are the property of their respective owners

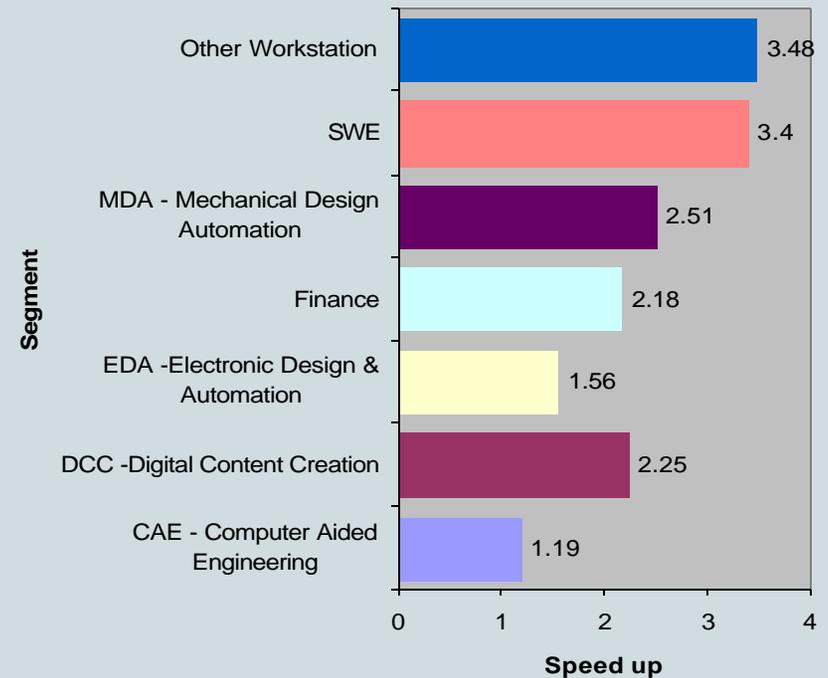

# Application Solution Center Speedups

\*Data for WW ASCs

## Server Segment by Speed up

## Workstation Segments by Speed up

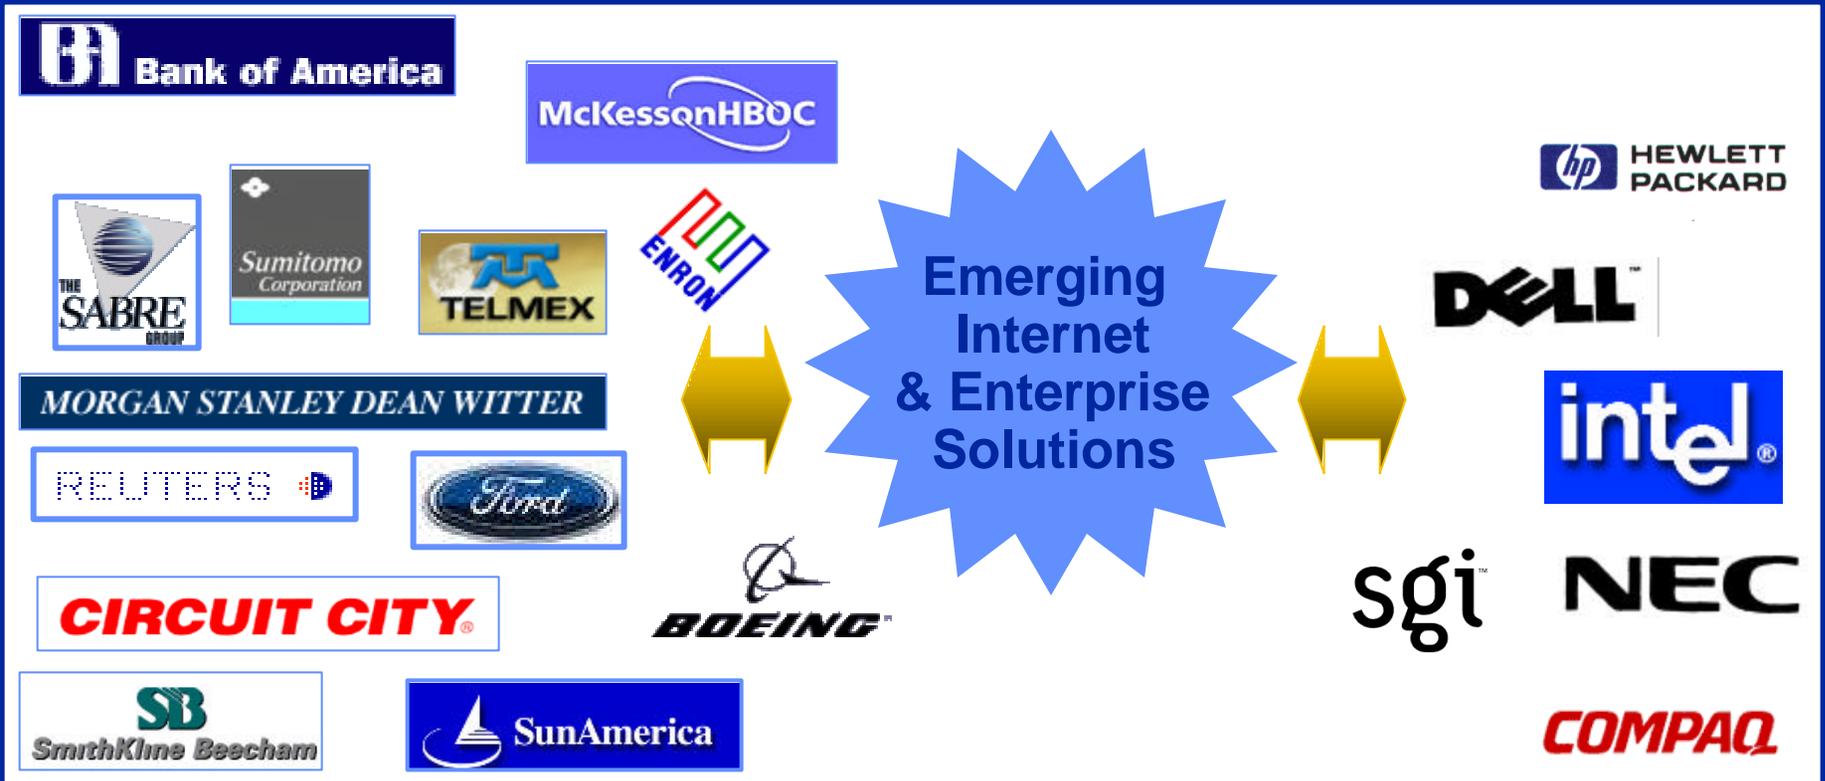

**Outstanding performance gains  
across all segments**

Source: Intel ASC Program, 1999. Data by Segment through June '99

# Intel 64 Fund

- A \$250m equity fund formed to accelerate the adoption of IA-64 based high volume server and workstation solutions.

<http://www.intel64fund.com>

\*Other brands and names are the property of their respective owners

# Early IA-64 Developer Tools

- **Purpose:** Ensure quality tools for first Itanium™ based systems
- **Intel SDK**
  - ◆ For clean code, compiling, linking & initial run-time debugging
- **Intel DDK**
  - ◆ For device driver development & run-time debugging
- **Pre-production Itanium™ based systems**

**We're working with a small number of vendors to improve IA-64 developer tools**

# Agenda

- IA-64 Server & Workstation Strategy
- IA-64 Software Programs
- ➔ ● Leading OSVs/ISVs IA-64 Status
- Call to Action

# OSV Status

Win64

SCO

Monterey Unix

HP-UX

Solaris

Modesto

- **Microsoft (Win64)**

- Booting with EFI loader; ACPI HAL is now default
- WOW64 executing simple IA-32 instructions
- Public Demo at WinHec

- **IBM/SCO (Monterey64)**

- Multi-user OS booting on Simulator
- Key device drivers ported (Kbd, Mouse, Video, Disk, NIC)

- **IA-64 Linux**

- Trillian team formed to port Linux to IA-64 (VA Linux, IBM, Intel, HP, SGI, Cygnus)
- IA-64 Linux booted and Apache web server running on Simulator

- **Novell (Modesto)**

- OS booting, NetFire JVM & Proxy Cache server executing on Simulator
- Public demos at BrainShare (US/Europe)
- EPC providing tools/compiler

- **Hewlett Packard (HP-UX)**

- Multi-user boot on Simulator
- Key device drivers ported (Kbd, Mouse, Video, Disk, NIC)
- Several applications running on Simulator

- **Sun (Solaris)**

- Multi-user OS booting on Simulator
- Key device drivers ported (Kbd, Mouse, Video, Disk, NIC)

**OSVs on track for Itanium™!**

\*Other brands and names are the property of their respective owners

**Leading ISVs on track to complete  
"Clean Code" by Q4**

# Partial List of ISVs on the Itanium™ Simulator

## ● Server ISVs

- ◆ Apache
- ◆ Microsoft
- ◆ Novell
- ◆ Oracle
- ◆ SAP
- ◆ SAS Institute, Inc.

## ● Workstation ISVs

- ◆ MSC
- ◆ Mental Ray
- ◆ Kinetix
- ◆ Mentor Graphics

# Agenda

- IA-64 Server & Workstation Strategy
- IA-64 Software Programs
- Leading OSVs/ISVs IA-64 Status
- Call to Action

# Call-to-Action

- **Get your software ready for IA-64 (i.e. “Code Cleaning”)**
  - ◆ Use existing IA-64 developer resources
- **Identify dependency applications**
