Delete Measurement Collection Job

# 1 Description

This instruction describes how to delete a measurement collection job. This is to be done when the performance measurement collection job is no longer of interest due to, for example, a new network performance monitoring strategy.

## 2 Procedure

### 2.1 Delete Measurement Collection Job

#### Prerequisites

- No documents are required.
- No tools are required.
- The following conditions must apply:
  - The job name is known.  
In this instruction, the job name example is PU\_15min\_Job.
  - `currentJobState` for the job is STOPPED.
  - An Ericsson Command-Line Interface (ECLI) session in Exec mode is in progress.

#### Steps

1. Navigate to the `Pm` managed object, for example:  

```
>dn ManagedElement=NODE06ST,SystemFunctions=1,Pm=1
```
2. Enter Config mode:  

```
(Pm=1)>configure
```
3. Delete the measurement collection job, for example:  

```
(config-Pm=1)>no PmJob=PU_15min_Job
```
4. Commit the deletion:  

```
(config-Pm=1)>commit
```

5. Verify the result:

```
(Pm=1)>show-table -m PmJob -p currentJobState,jobPriority,jobType,pmJobId
```

The following is an example output:

currentJobState	jobPriority	jobType	pmJobId
ACTIVE	MEDIUM	MEASUREMENTJOB	POT_15min_Job
STOPPED	MEDIUM	THRESHOLDJOB	VM_15min_Job
