

TOOLS

LOCATORS- DESCRIPTION

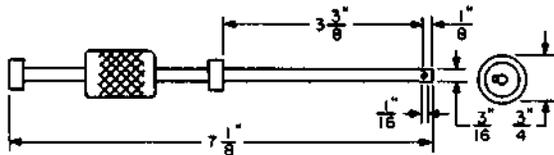

1. GENERAL

1.01 This section covers coded Bell System locator tools.

1.02 When this section is reissued, the reason for reissue will be listed in this paragraph.

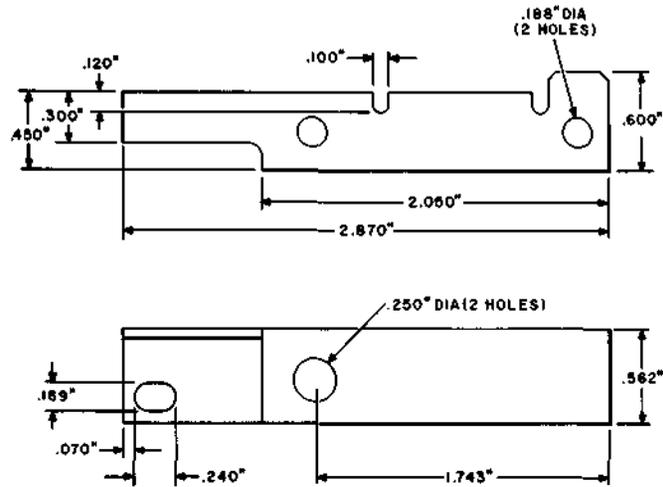

1.03 The information contained in this section supersedes the corresponding information in Sections 074-112-101 and 074-153-101.

354

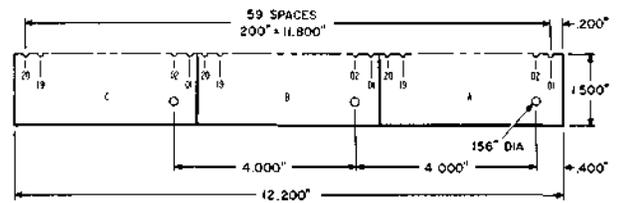

Cam locating tool. For use on 155A and 157-type interrupters and A- and B-type sequence switches.

743A

The 743A tool is used for locating a drilled hole necessary to modify coin collectors or coin telephones to accept a coin level detector.

753A

Locating and identifying tool. Used to locate and identify terminals for purposes of wiring and testing during manufacturing, installation, and maintenance. Initial use is on No. 1 ESS, J1H012A, and J1H013A switch units.

NOTICE

Not for use or disclosure outside the Bell System except under written agreement
