

C CARDING BRUSH

(AT-8952)

DESCRIPTION AND USE

1. GENERAL

1.01 This section describes the C carding brush (AT-8952). The brush is used for scuffing plastic cable jackets in preparation for application of tape.

1.02 Whenever this section is reissued, the reasons for reissue will be listed in this paragraph.

2. DESCRIPTION

2.01 The C carding brush (AT-8952) consists of a length of cotton webbing to which two lengths of wire carding cloth are attached to form a wire brush. A Dee ring is attached to each end of the webbing for gripping. The wire cards are mounted opposite to each other so to be most effective when used with a reciprocating stroke.

2.02 A C carding brush is shown in Fig. 1.
