1. GENERAL

- 1.1 This section provides testing information for Origination Restriction.
- 1.2 A station line with Origination Restriction cannot be used to originate calls at any time. Any attempt to originate a call will be given intercept tone for approximately 10 seconds and then Line Lockout will occur. Terminating calls will complete normally to this station line.
- 1.3 Origination Restriction is administered by the Line Class of Service Assignments.
- 1.4 Figure 1 is provided to record data required for this test and gives a summary of the steps involved.

2. RECORDS

- 2.1 Form SD-97-1313 is required for recording the results of these tests.
