1. GENERAL INFORMATION

1.1 Description

1.11 This section describes the test to be performed whenever the Direct Trunk Group Selection feature is provided.

1.12 This feature allows the attendant direct access to trunk group by depressing a console key.

2. RECORDS

2.1 Form SD-97-1313 is required for recording the results of this test.

3. TEST EQUIPMENT

3.1 None.

4. PROCEDURE

4.1 Test Procedure

4.11 Momentarily depress an idle loop key and an assigned Direct Trunk Select Key. Verify:

a. If trunk group consists of Automatic Tie Trunks: Ring Lamp Lights and attendant at distant facility answers.

b. If trunk group does not consist of Automatic Tie Trunks: answer lamp lights and distant dial tone is heard.

4.12 Release console. Verify console is idle.

4.13 This completes testing of the Direct Trunk Group Selection feature.
