

GRAPHICAL DETERMINATION OF INPUT IMPEDANCE OF
REPEATING COIL WITH ANY TERMINATING IMPEDANCE
120CS COIL

1.01 The 120CS repeating coil is electrically equivalent to the 94E repeating coil, for which basic data and charts are available.

1.02 This information, and a general discussion of the method of using the charts, may be found in 304-200-100 and 304-200-101.
