ISSUE 1 CHANGES

2.001 On page 4, change the Caution to read:
Do not use a 101A or 102A IU as trunk 9 (position 13) or trunk 14 (position 14) if a 101B or 102B is used as trunks 1 or 3 (positions 1 or 4) or trunks 5 or 7 (positions 7 and 10). Doing so may cause trouble in positions 1, 4, 7, or 10 due to the internal wiring of the panel.

2.002 On page 12, in Table A, under column J13 in row 102A and column J14 in row 101A, change bullets (●) to a double dagger (‡).
