

DROP AND BLOCK WIRE
STRINGING SAGS AND SPAN LIMITS
INSTALLATION

1. GENERAL
 - 1.01 This addendum is to provide information to reduce drop wire vibration and dancing.
 - 1.02 With red pencil or ink make the addition as shown in paragraph 2 of this addendum. In the margin of the subject paragraph write the words "See Addendum".
 - 1.03 File this addendum directly in front of CTSP 475-300-403.
2. ADDITION
 - 2.01 Add paragraph 1.05 which reads as follows:
 - 1.05 Drop wire should be twisted one complete turn for each ten feet of span length at the time of installation to reduce vibration and dancing.
