

525-AND 526-TYPE TELEPHONE SETS

1. General

1.01 This addendum is issued to supplement Section 502-501-117, Issue 2. It adds information and deletes reference to features not standard with S.N.E.T.

1.02 The following features of the 526-Telephone Set are not standard with this company:

- (a) Two line pickup
- (b) Exclusion
- (c) Lock, to control electrical circuit
- (d) Microswitch

Delete all reference to these features and associated equipment required to provide them. These items are considered "Special Assembly" and requests to provide them should be handled accordingly.

2. Design Features

2.01 The 1/2-inch pipe plugs supplied in the 526-Housing Assembly, may be removed with a 3/8-inch Allen Wrench.

2.02 A 223A1A protector may be fastened to the mounting plate of the 526-type telephone set base using two 10-24 X 1/2-inch machine screws. These screws are not supplied with the set, but are listed in the Catalog of Supplies, and may be ordered through normal procedures.
