

**NO. 1 ELECTRONIC SWITCHING SYSTEM ADF
HALF-DUPLEX – 100 WORD PER MINUTE DATA STATION
USING 4-ROW TELETYPEWRITERS
WIRING**

1. GENERAL

1.01 This section provides a reference list for the wiring of a half-duplex, 100 word per minute data station incorporating 33- and 35-type Teletypewriters (TTY) and used with No. 1 Electronic Switching System Arranged with Data Features (No. 1 ESS ADF).

1.02 The data station consists of:

- Model 33 automatic send and receive (ASR) or a Model 33 receive only (RO) TTY, *or* a Model 35 ASR or a Model 35 RO TTY, *or* a Model 35 receive only typing reperforator (ROTR).

Note: The TTY's may be used as a primary or an auxiliary set. Model 35 ROTR, when used as an auxiliary set, may be associated with only the Model 35 ASR or Model 35 RO primary set.

- Data Auxiliary Set (DAS) 820B1 or 820B2
- DAS 804N2, 804N4, *or* 804R3
- Data Set 108A- or 109A-type
- Cord M36F (4 or 10 feet long for RO stations only)
- 91A Bracket (for 33-type TTY's)
- 92A Bracket (for 35 ASR or RO TTY's)
- 95A Bracket (for 35 ROTR TTY's)
- KS-20018 L1, L2, L3, *or* L4 Cabinet (for 35 ROTR TTY only)

1.03 The following table lists the drawings that cover the wiring of the data station and the individual components which make up the data station.

DRAWING NUMBER	TITLE	ISSUING ORGANIZATION
8195WD	Actual Wiring Diagram For LXD 812 (35E Transmitter Distributor Unit)	Teletype Corporation
8145WD	Actual Wiring Diagram For LESU 345 (35U Electrical Service Unit)	
4348WD	Actual Wiring Diagram For LCXB 806 (35B Transmitter Distributor Base)	
2900WD	Actual Wiring Diagram For LMU3 (28A Motor Unit)	
8193WD	Actual Wiring Diagram For LP844 DC/AUX (35N Typing Unit)	
8193WD	Actual Wiring Diagram For LP843 DC/AUX (35P Typing Unit)
