

SUPPORTS AT Y-SPLICES

DESCRIPTION AND USE

1. GENERAL

1.001 This addendum supplements Section 633-020-201, Issue 4.

1.002 It is issued to include the use of cable-to-cable plastic support spacers. These "saddle" type spacers are described in the Pacific Company Addendum to Section 627-340-101. They are to be used when supporting one cable to another that is properly supported to the strand. Arrangement of the spacers remain as described throughout the section.

Support Spacer

2. POLYETHYLENE OR LEAD SHEATH CABLE — SPLICE CASES

The following changes apply to Part 2 of the section:

- 2.11 — added
- Fig. 11 — added

2.11 Place and secure the appropriate sized spacer with a C lashed cable support as shown in Fig. 11. After securing the support spacer, trim off the protruding end of the C lashed cable support (black tie).

4. SPACING

The following change applies to Part 4 of the section:

- 4.02 — added

4.02 The use of the cable-to-cable plastic spacers are the same as noted in Fig. 10.
