ADAPTERS 146-AX-60S, 147-AX-60S

IDENTIFICATION

1.00 GENERAL

This Addendum describes two new Adapter plates for use in attaching various types of telephone apparatus to 63A, and 63-AX-59 mounting brackets and standard electrical outlet boxes.

2.00 DESCRIPTION

2.01 These Adapters are known as 146-AX-60S and 147-AX-60S Adapters. They are made of tempered flat steel, drilled and tapped to accommodate the following types of apparatus. The 146-AX-60S Adapter is used for mounting the E1A Ringer, 759A Loud Speaker, and 730A Receiver used with the 1A Home Interphone System. The 147-AX-60S Adapter is used for mounting the F1A "Chime Ringer", 300 type wall telephone set and the 500 type wall telephone set.

2.02 Figure 1 of this Addendum furnishes a description of these Adapters and the various taps provided for mounting the apparatus are shown. The Table in Figure 1, shows the mounting applications, proper screws to use, and designates proper mounting holes for the equipment to be installed.

Each Adapter is packaged with assorted screws needed to attach the equipment used to the Adapter. The Table in Figure 1, designates the proper screws to use for each piece of apparatus.

Mounting Adapter on Wall Bracket or Outlet Box			Mounting Equipment on Adapter			
Item on Wall	Hole No.	Screw	Item to be mounted		Hole No.	Screw
63A Bracket	6 & 10	E	146-AX-60	147-AX-60	2 & 14	G
	See Note 2		EIA Ringer	147-AX-60	7 & 13	F
63A Bracket	5 & 9	E	759A Lspkr	147-AX-60	7 & 13	F
	See Note 2		730A Rcvr.	147-AX-60	7 & 13	F
63-AX-59 Bracket	6 & 8	D	146-AX-60	EIA Ringer	1 & 15	B
	See Note 3		147-AX-60	300 Type Wall Set	1 & 15	A
Outlet Box	3 & 11	C & E	146-AX-60	500 Type Wall Set	4 & 12	A
Note 1. When mounting 147-AX-60 adapter for use with 500 type wall set, place adapter with numbers downward. Note 2. Holes used depend on desired mounting for adapter, i.e. 6 and 10 for vertical mount or 5 and 9 for horizontal mount. Note 3. The 63-AX-59 bracket can be rotated after loosening the bracket mounting screws to position the adapter horizontally or vertically.			See Note 1			
Mounting Screws						
Screw	Description		Code			
A	No. 6-32 x 3/16 Binding Head Machine Screw		[Screw icon]			
B	No. 6-32 x 3/4 Binding Head Machine Screw		[Screw icon]			
C	No. 6-32 x 7/8 Binding Head Machine Screw		[Screw icon]			
D	No. 6-32 x 3/16 Undercut Flat Head Machine Screw		[Screw icon]			
E	No. 6-32 x 7/8 Flat Head Machine Screw		[Screw icon]			
F	No. 6-40 x 1/2 Round Head Machine Screw		[Screw icon]			
G	No. 6-40 x 1/2 Washer Head Machine Screw (Special)		[Screw icon]
