

6A KEY TELEPHONE SYSTEM IDENTIFICATION

1.000 INTRODUCTION

- This addendum supplements Section C71.011. It is issued to change and delete portions of the section to conform with tariffs filed in the Pacific-CN.
- This addendum shall be retained with subsequent issues of the section unless reissued or cancelled.
- Mark the changed portions of the section with the cross-reference "See Addendum".

2.000 CHANGES AND DELETIONS

- Delete all information within the section that refers to the "Single Talking Link" arrangement.
- Delete all "Selector Only" information that refers to Signal Key Station Selection.
- Change the maximum number of station codes used on the "Selector Only" arrangement from 36 to 20.
