

COMMUNITY TELEVISION ANTENNA SYSTEMS

JOINT USE

NOTES CONCERNING THIS ADDENDUM

This addendum supplements Section G10.902.1, and is being issued to cover instructions relative to reporting infractions and unauthorized attachments created by the Community Television Antenna Companies.

"See Addendum" should be marked in G10.902.1 to indicate the following:

Paragraph 1.04(d) - supplemented.
Part 4 - added.

1. GENERAL

1.04(d) The plant engineer shall request the Construction-Engineering Staff group on quality inspection to check the completed work to assure that the cable, equipment, etc., were placed in accordance with the instructions and license agreement and that no G. O. 95 infractions have been created. The inspector shall advise the Plant Engineer the results of the inspection for whatever further action is necessary.

4. INFRACTIONS AND UNAUTHORIZED ATTACHMENTS

4.01 Any infractions created by the Community Television Antenna Company's plant shall be reported for correction as outlined in Section G10.910.1 and sub-sections that apply.

4.02 If any unauthorized television antenna system is found installed, or about to be installed, on poles owned wholly or in part by the Telephone Company, the matter shall be referred to the District Plant Engineer for corrective action. If necessary, the assistance of the Chief Special Agent shall be requested.
