

CABLE SPLICING—COILS AND CASES

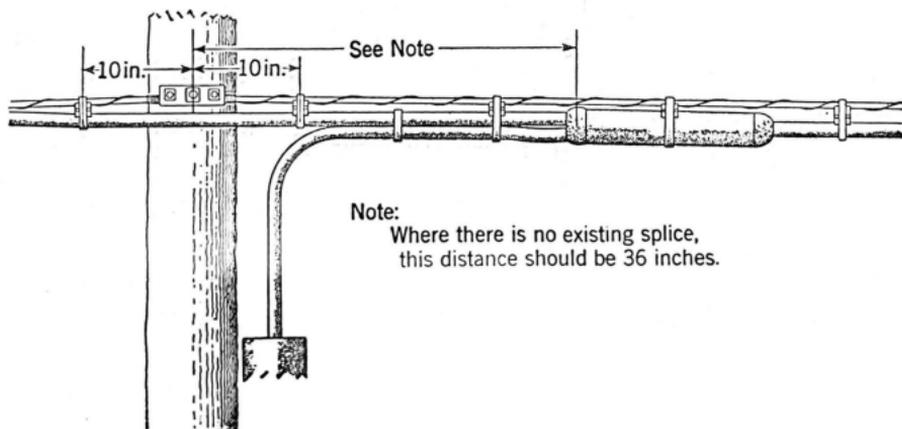

WELDED STEEL OR CAST IRON CASES—

STUB ARRANGEMENT—AERIAL

Contents	Page
1. Exchange Welded Steel Case Stubs	1
2. Toll Welded Steel Case Stubs	2
3. Cast Iron Cases	2

1. EXCHANGE WELDED STEEL CASE STUBS

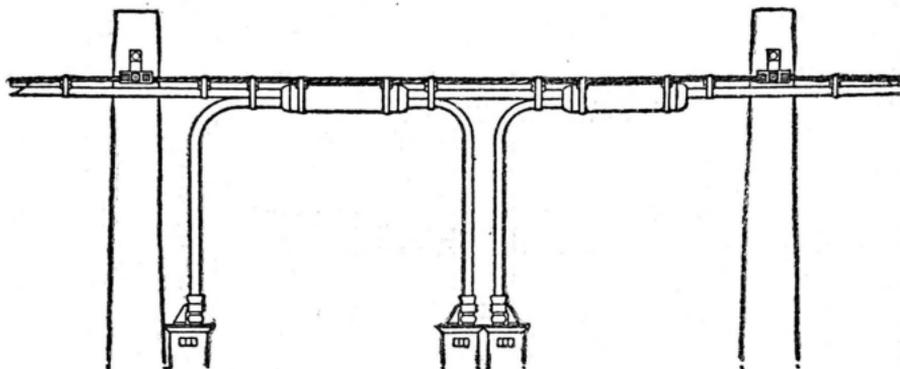

1.01 The arrangement of the loading coil stub cable is illustrated below.

2. TOLL WELDED STEEL CASE STUBS

2.01 Stubs of toll aerial cases attached to a pole by brackets or supports should be arranged in the same manner as stubs of exchange welded steel cases.

2.02 The arrangement of the stubs of toll welded steel cases at H fixtures is illustrated below.

3. CAST IRON CASES

3.01 The stubs of cast iron cases which are reused are arranged in the same manner as welded steel cases.
