

Avaya Library Reference

Avaya Communication Server 1000

7.5
NN43001-100, 05.04
August 2011

Notice

While reasonable efforts have been made to ensure that the information in this document is complete and accurate at the time of printing, Avaya assumes no liability for any errors. Avaya reserves the right to make changes and corrections to the information in this document without the obligation to notify any person or organization of such changes.

Documentation disclaimer

Avaya shall not be responsible for any modifications, additions, or deletions to the original published version of this documentation unless such modifications, additions, or deletions were performed by Avaya. End User agree to indemnify and hold harmless Avaya, Avaya's agents, servants and employees against all claims, lawsuits, demands and judgments arising out of, or in connection with, subsequent modifications, additions or deletions to this documentation, to the extent made by End User.

Link disclaimer

Avaya is not responsible for the contents or reliability of any linked Web sites referenced within this site or documentation(s) provided by Avaya. Avaya is not responsible for the accuracy of any information, statement or content provided on these sites and does not necessarily endorse the products, services, or information described or offered within them. Avaya does not guarantee that these links will work all the time and has no control over the availability of the linked pages.

Warranty

Avaya provides a limited warranty on this product. Refer to your sales agreement to establish the terms of the limited warranty. In addition, Avaya's standard warranty language, as well as information regarding support for this product, while under warranty, is available to Avaya customers and other parties through the Avaya Support Web site: <http://www.avaya.com/support>. Please note that if you acquired the product from an authorized Avaya reseller outside of the United States and Canada, the warranty is provided to you by said Avaya reseller and not by Avaya.

Licenses

THE SOFTWARE LICENSE TERMS AVAILABLE ON THE AVAYA WEBSITE, [HTTP://SUPPORT.AVAYA.COM/LICENSEINFO/](http://SUPPORT.AVAYA.COM/LICENSEINFO/) ARE APPLICABLE TO ANYONE WHO DOWNLOADS, USES AND/OR INSTALLS AVAYA SOFTWARE, PURCHASED FROM AVAYA INC., ANY AVAYA AFFILIATE, OR AN AUTHORIZED AVAYA RESELLER (AS APPLICABLE) UNDER A COMMERCIAL AGREEMENT WITH AVAYA OR AN AUTHORIZED AVAYA RESELLER. UNLESS OTHERWISE AGREED TO BY AVAYA IN WRITING, AVAYA DOES NOT EXTEND THIS LICENSE IF THE SOFTWARE WAS OBTAINED FROM ANYONE OTHER THAN AVAYA, AN AVAYA AFFILIATE OR AN AVAYA AUTHORIZED RESELLER, AND AVAYA RESERVES THE RIGHT TO TAKE LEGAL ACTION AGAINST YOU AND ANYONE ELSE USING OR SELLING THE SOFTWARE WITHOUT A LICENSE. BY INSTALLING, DOWNLOADING OR USING THE SOFTWARE, OR AUTHORIZING OTHERS TO DO SO, YOU, ON BEHALF OF YOURSELF AND THE ENTITY FOR WHOM YOU ARE INSTALLING, DOWNLOADING OR USING THE SOFTWARE (HEREINAFTER REFERRED TO INTERCHANGEABLY AS "YOU" AND "END USER"), AGREE TO THESE TERMS AND CONDITIONS AND CREATE A BINDING CONTRACT BETWEEN YOU AND AVAYA INC. OR THE APPLICABLE AVAYA AFFILIATE ("AVAYA").

Copyright

Except where expressly stated otherwise, no use should be made of materials on this site, the Documentation(s) and Product(s) provided by Avaya. All content on this site, the documentation(s) and the product(s) provided by Avaya including the selection, arrangement and design of the content is owned either by Avaya or its licensors and is

protected by copyright and other intellectual property laws including the sui generis rights relating to the protection of databases. You may not modify, copy, reproduce, republish, upload, post, transmit or distribute in any way any content, in whole or in part, including any code and software. Unauthorized reproduction, transmission, dissemination, storage, and or use without the express written consent of Avaya can be a criminal, as well as a civil, offense under the applicable law.

Third-party components

Certain software programs or portions thereof included in the Product may contain software distributed under third party agreements ("Third Party Components"), which may contain terms that expand or limit rights to use certain portions of the Product ("Third Party Terms"). Information regarding distributed Linux OS source code (for those Products that have distributed the Linux OS source code), and identifying the copyright holders of the Third Party Components and the Third Party Terms that apply to them is available on the Avaya Support Web site: <http://www.avaya.com/support/Copyright/>.

Preventing toll fraud

"Toll fraud" is the unauthorized use of your telecommunications system by an unauthorized party (for example, a person who is not a corporate employee, agent, subcontractor, or is not working on your company's behalf). Be aware that there can be a risk of toll fraud associated with your system and that, if toll fraud occurs, it can result in substantial additional charges for your telecommunications services.

Avaya fraud intervention

If you suspect that you are being victimized by toll fraud and you need technical assistance or support, call Technical Service Center Toll Fraud Intervention Hotline at +1-800-643-2353 for the United States and Canada. For additional support telephone numbers, see the Avaya Support Web site: <http://www.avaya.com/support/>. Suspected security vulnerabilities with Avaya products should be reported to Avaya by sending mail to: securityalerts@avaya.com.

Trademarks

The trademarks, logos and service marks ("Marks") displayed in this site, the documentation(s) and product(s) provided by Avaya are the registered or unregistered Marks of Avaya, its affiliates, or other third parties. Users are not permitted to use such Marks without prior written consent from Avaya or such third party which may own the Mark. Nothing contained in this site, the documentation(s) and product(s) should be construed as granting, by implication, estoppel, or otherwise, any license or right in and to the Marks without the express written permission of Avaya or the applicable third party.

Avaya is a registered trademark of Avaya Inc.

All other trademarks are the property of their respective owners.

Downloading documents

For the most current versions of documentation, see the Avaya Support Web site: <http://www.avaya.com/support>

Contact Avaya Support

Avaya provides a telephone number for you to use to report problems or to ask questions about your product. The support telephone number is 1-800-242-2121 in the United States. For additional support telephone numbers, see the Avaya Web site: <http://www.avaya.com/support>

Chapter 1: New in this release

The following section details what is new in the *Library Reference, NN43001-100* for Avaya Communication Server 1000 Release 7.5.

- [Features](#) on page 5
- [Other changes](#) on page 5

Features

This document does not contain new features. For information about the new features for this release, see *New in this Release, NN43001–115* or for a complete list of features, see the *Feature Listing Reference, NN43001–111*.

Other changes

See the following section for information about changes that are not feature-related.

Revision History

August 2011	Standard 05.04. This document is up-issued to support the removal of content for outdated features, hardware, and system types.
May 2011	Standard 05.03. This document is up-issued to support Avaya Communication Server Release 7.5. Removed reference to CD-ROM.
February 2011	Standard 05.02. This document is up-issued to support Avaya Communication Server Release 7.5. Added missing content.
November 2010	Standard 05.01. This document is up-issued to support Avaya Communication Server 1000 Release 7.5.
June 2010	Standard 04.01. This document is up-issued to support Communication Server 1000 Release 7.0.

New in this release

March 2010	Standard 03.04. This document is up-issued to correct references to <i>Signaling Server IP Line Applications Fundamentals</i> (NN43001-125).
October 2009	Standard 03.03. This document is up-issued to add the new technical document <i>Instant Messaging and Presence Application</i> (NN43001-141) to support Communication Server 1000 Release 6.0.
May 2009	Standard 03.02. This document is up-issued to support Communication Server 1000 Release 6.0.
May 2009	Standard 03.01. This document is up-issued to support Communication Server 1000 Release 6.0. This technical document may contain information on or refer to products and naming conventions that are not supported in this release. This information is included for legacy purposes and convenience only. This includes but is not limited to items, such as: SSC; ISP 1100; ITG Pentium cards; and Media Cards running certain IP Line applications.
December 2007	Standard 02.05. This document is up-issued to reflect corrections in document titles.
May 2007	Standard 01.01. This document is issued to support Communication Server 1000 Release 5.0. This document contains information previously contained in the following legacy document, now retired: Library Reference (553-3001-000).
September 2004	Standard 1.00. This document has been up-issued to support Communication Server 1000 Release 4.0.

Chapter 2: Customer service

Visit the Avaya Web site to access the complete range of services and support that Avaya provides. Go to www.avaya.com or go to one of the pages listed in the following sections.

Navigation

- [Getting technical documentation](#) on page 7
- [Getting product training](#) on page 7
- [Getting help from a distributor or reseller](#) on page 7
- [Getting technical support from the Avaya Web site](#) on page 8

Getting technical documentation

To download and print selected technical publications and release notes directly from the Internet, go to www.avaya.com/support.

Getting product training

Ongoing product training is available. For more information or to register, go to www.avaya.com/support. From this Web site, locate the Training link on the left-hand navigation pane.

Getting help from a distributor or reseller

If you purchased a service contract for your Avaya product from a distributor or authorized reseller, contact the technical support staff for that distributor or reseller for assistance.

Getting technical support from the Avaya Web site

The easiest and most effective way to get technical support for Avaya products is from the Avaya Technical Support Web site at www.avaya.com/support.

Chapter 3: About this document

This document provides an overview of the Communication Server 1000 library.

Navigation

- [Introduction](#) on page 13 Provides background information about the Communication Server 1000 library and its components, including information on order numbers.
- [Documentation changes](#) on page 15 Provides a list of the new technical documents introduced and changes to document title or document number in Communication Server 1000 Release 7.5.
- [Documentation Roadmap for Avaya Communication Server 1000](#) on page 17 Provides information on high level task flows for the installation or upgrade of a Communication Server 1000 system.
- [Technical documentation library](#) on page 37 Provides a list of the technical documents sorted by document number.
- [User Guide and Quick Reference Card](#) on page 45 Provides a list of the User Guides and Quick Reference cards sorted by document number.
- [Merged and retired technical documents](#) on page 51 Provides a list of the technical documents that have been merged or retired.

Note on legacy products and releases

This technical document contains information about systems, components, and features that are compatible with Avaya Communication Server 1000 Release 7.5 software. For more information about legacy products and releases, go to the Avaya home page: www.avaya.com.

Applicable systems

This document applies to the following systems:

- Communication Server 1000M Single Group (CS1000M SG)
- Communication Server 1000M Multi Group (CS1000M MG)
- Communication Server 1000E
- Meridian 1 PBX 61C
- Meridian 1 PBX 81C

Important:

When upgrading software, memory upgrades may be required on the Signaling Server, the Call Server, or both.

System migration

When particular Meridian 1 systems are upgraded to run CS 1000 software and configured to include a Signaling Server, they become CS 1000 systems. The following table lists each Meridian 1 system that supports an upgrade path to a CS 1000 system.

Table 1: Meridian 1 systems to CS 1000 systems

This Meridian 1 system	Maps to this CS 1000 system
Meridian 1 PBX 11C Chassis	CS 1000E
Meridian 1 PBX 11C Cabinet	CS 1000E
Meridian 1 PBX 61C	CS 1000M Single Group
Meridian 1 PBX 81C	CS 1000M Multi Group

For more information, see one or more of the following technical documents:

- *Avaya CS 1000M and Meridian 1 Large System Upgrades Overview, NN43021-458*
- *Avaya Communication Server 1000E Software Upgrades, NN43041-458*
- *Avaya Communication Server 1000E Upgrade - Hardware Upgrade Procedures, NN43041-464*

Intended audience

This document is intended for individuals wanting to locate documents within the CS 1000 and Meridian 1 documentation suite.

Conventions

Terminology

In this document, the term System refers generically to the following:

- Avaya Communication Server 1000E (Avaya CS 1000E)
- Avaya Communication Server 1000M (Avaya CS 1000M)
- Meridian 1

Online

To access Avaya documentation online, click the Technical Documentation link under Support on the Avaya home page: www.avaya.com.

About this document

Chapter 4: Introduction

Navigation

[Document numbering system](#) on page 13

Document numbering system

Technical Document number

A technical document number is a number assigned to a document for identification purposes. Technical Document numbers have the following format: NN-ABBBB-CDD. Where:

- A — line of business. For example, 4 represents Enterprise.
- BBBB — product code. For example:
 - 3001 references documents that contain Avaya Communication Server 1000 information
 - 3011 references documents that contain Avaya Communication Server 1000M Small System-specific information
 - 3021 references documents that contain Avaya Communication Server 1000M Large System-specific information
 - 3041 references documents that contain Avaya Communication Server 1000E specific information
- C — document function. For example:
 - 1 represents a user guide
 - 3 represents an installation document
- DD — sequential digits

**Important:**

Unlike order numbers, technical document numbers normally do not change with each product or library release.

Category

The specific category that a technical document falls under is defined as follows:

Document category	Description
Basics	Includes library navigation, system overview, and new release information documents.
Planning and Engineering	Includes tasks specific to planning, designing, and engineering the network (including the hardware and software); the network management system and inter-networking products such as determining the right technology for the network; accessing the network performance requirements, and understanding hardware and software migration impacts; scheduling and ordering; sales application engineering; implementation planning; and traffic/capacity engineering. It also includes card and cabling descriptions.
Installation and Commissioning	Includes tasks performed during initial hardware and software installation; initial configuration; testing/commissioning of installation, acceptance, and sign-off.
System Administration and Security	Includes general system administration and security tasks such as creating user accounts and defining and optimizing system security.
Operations	Includes tasks associated with feature and/or application installation, configuration, and activation (including telephones, terminals, consoles, etc.). Includes tasks specific to administering the database, generating reports, and related services.
Performance and Fault Management	Includes system-generated error messages and traffic information. Includes tasks specific to monitoring and optimizing performance measurements and fault data, troubleshooting and correcting faults and alarms, and responding to performance data such as thresholds, operational measurements, and statistics. Includes tasks specific to performing local and remote fixes. Includes input and output error message documents.
Upgrades	Includes tasks specific to planning, preparing, and performing physical hardware removal and installation, new software version upgrades (includes removal and installation). It also includes configuration and testing.

Chapter 5: Documentation changes

The changes in the following sections are for Release 7.5.

Navigation

- [New technical documents](#) on page 15
- [Technical documents renumbered or retitled](#) on page 15
- [Table 2: Retired technical documents](#) on page 15

New technical documents

There are no new technical documents introduced in Release 7.5.

Technical documents renumbered or retitled

There are no technical documents renumbered and/or retitled in Release 7.5.

Retired technical documents

The following table lists the technical documents retired in Release 7.5. For a complete list of retired technical documents from previous releases, see [Merged and retired technical documents list](#) on page 51.

Table 2: Retired technical documents

Technical Document Number	Technical Document Title
NN42340–100	Mobile Voice Client 2050 User Guide
NN43001–119	Secure Multimedia Controller 1.0 Command Reference

Documentation changes

Technical Document Number	Technical Document Title
NN43001-325	Secure Multimedia Controller 1.0 Fundamentals

Chapter 6: Documentation Roadmap for Avaya Communication Server 1000

This chapter provides a view of the high level task flows available for the installation or upgrade of an Avaya CS 1000 system. The task flow indicates the recommended sequence of events to follow when configuring a system and provides the technical document number that contains the detailed procedures required for the task.

Navigation

Merged and retired technical documents list

The following tables contain a list of all merged and retired documents.

Table 6: Document range from 167–2191–200 to 553–2601–200

Technical Document number	Final issue	Final issue date	Technical Document title	Notes
167-2191-200	—	Oct-79	Power Distribution Plant J2412a	—
167-4201-200	—	Aug-77	UT1 Power Description, Installation and Maintenance	—
169-2181-200	—	Oct-84	J2357D Rectifier	—
553-2001-100	4	Dec-94	Japanese Features and Services	Redundant Content
553-2001-110	2	Dec-91	SL-1 Telephones and Add-on Modules Description	Replaced by 553-3001-108

Merged and retired technical documents

Technical Document number	Final issue	Final issue date	Technical Document title	Notes
553-2001-115	2	Jul-91	Attendant Console and Add-on Modules Description	Replaced by 553-2201-117
553-2001-187	2	Dec-91	QPC71 E/DX Signaling and Paging Trunk Card Description	Merged with 553-3001-106
