ADDENDUM P30.502  
Issue B, 9-1-39  
Long Lines Department

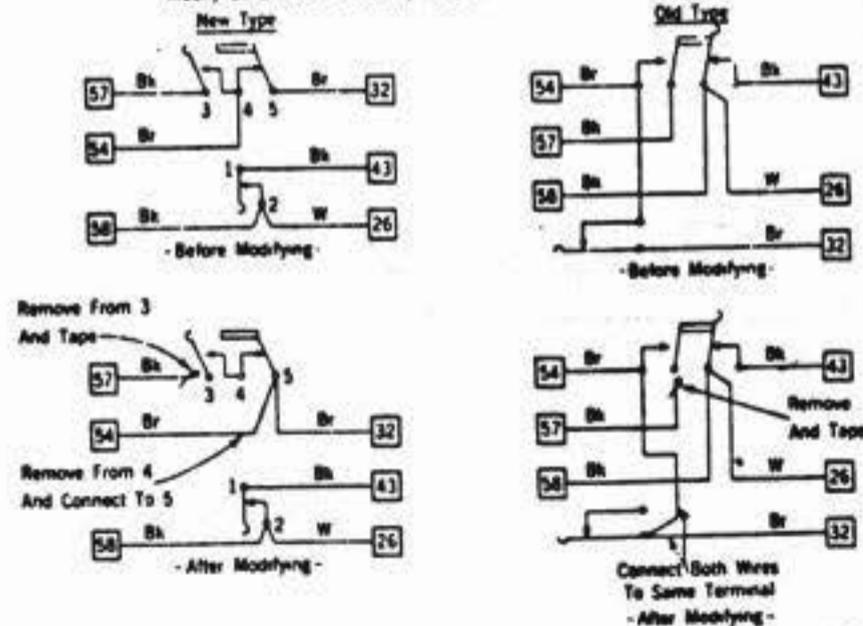

## 1. GENERAL

1.01 This addendum supplements Section P30.502 by adding Connection Plans L9.05 and L9.08. It has been reissued to add the latter Plan.

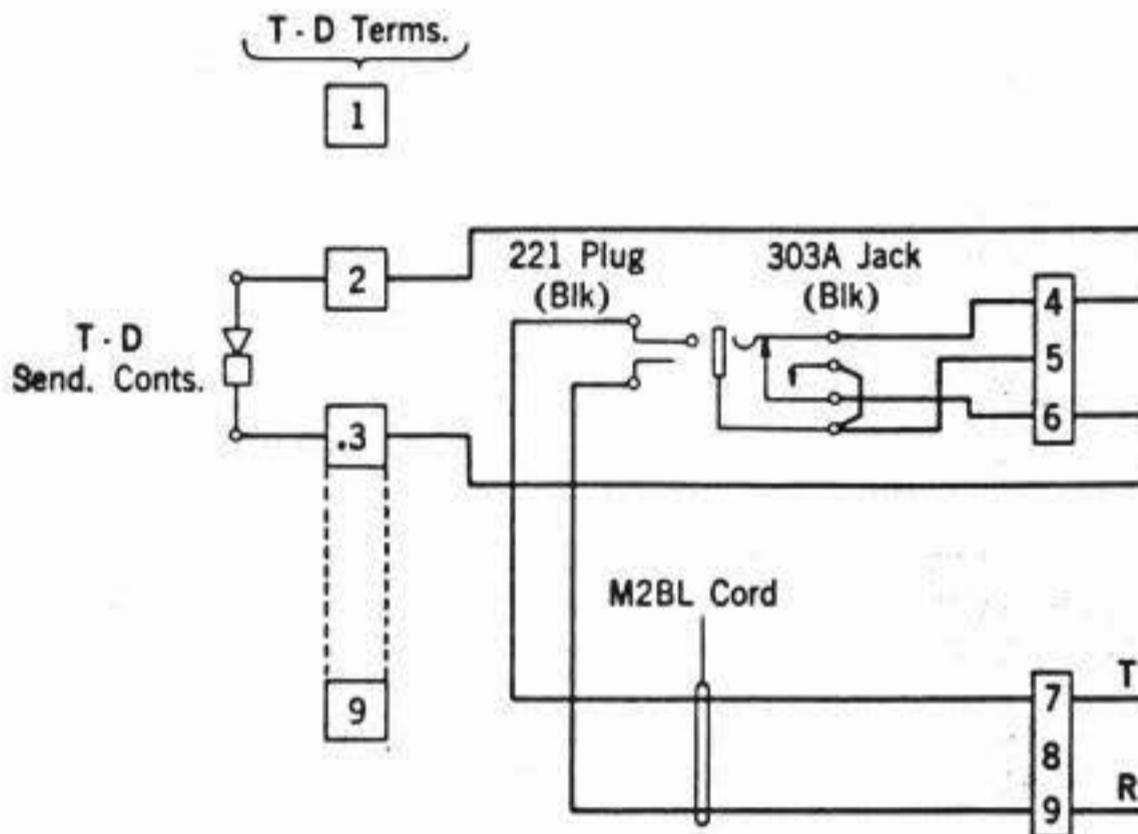

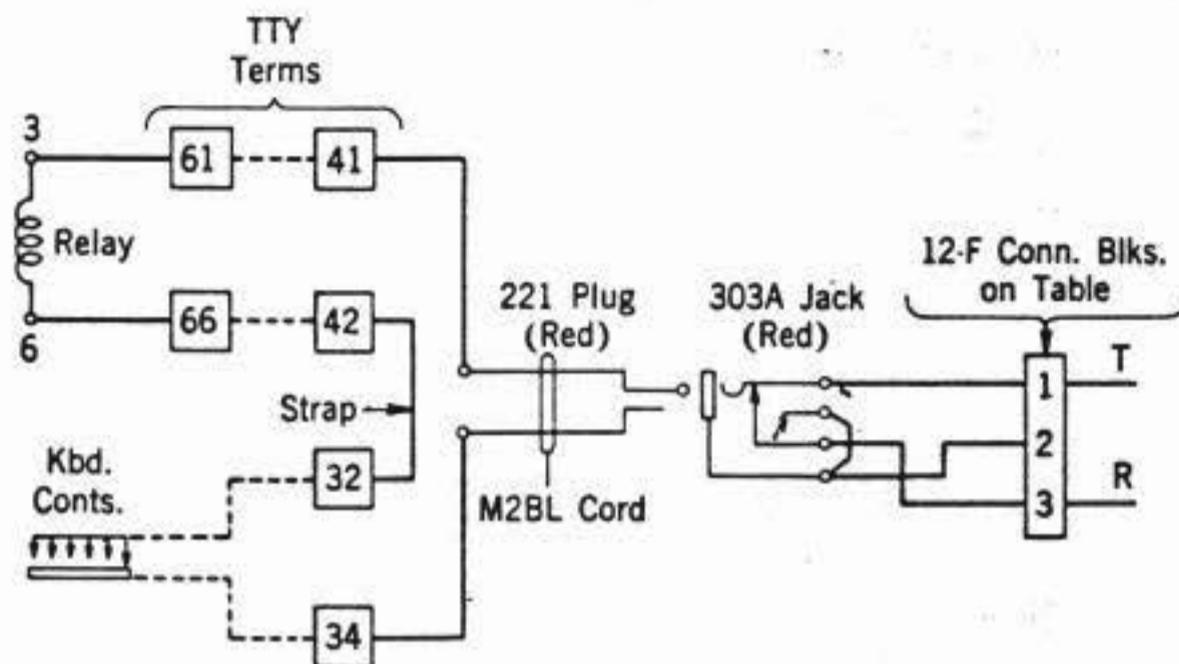

1.02 Connection Plan L9.08 provides information to permit the rearrangement of a No. 19 teletypewriter set equipped with the remote motor control arrangement, so that its transmitter-distributor can be used as an independent unit and the remainder of the set as another unit.
