---

Thank you for purchasing the mydlink Camera Video Recorder. Follow the easy steps in this guide to properly set up your recorder. Please verify that all the package contents listed below are available.

## Package Contents

D-Link DNR-202L mydlink Camera Video Recorder

Power Adapter

Ethernet Cable

Quick Install Guide

If any of the above items are missing, please contact your reseller.

## Minimum Requirements

- Computer with Microsoft Windows® 7 or 8, Windows Vista® 2 or XP SP 2; Mac OS 10.5 or above
- PC with Pentium 4 – 2.4 GHz or above; at least 512MB RAM
- Internet Explorer 7 or above, Firefox, Chrome, or Safari 4 or above
- Existing 10/100 Ethernet-based network

---

# Installation - Windows Only

## Step 1:

Connect the included Ethernet cable to the Ethernet port located on the rear panel of the DNR-202L and attach it to your network.

## Step 2:

Connect the power supply to the power connector located on the rear panel of the DNR-202L and connect it to a wall outlet or power strip. Power is confirmed when the blue LED Power Indicator located on the front panel is lit.

## Step 3:

Open your web browser and go to **<http://www.mydlink.com/support>**. Then, click the **Storage** tab and select your product to download the Setup Wizard.

## Step 4:

Click the **Start** button to start the wizard and follow the instructions to set up your NVR. If you want to add cameras to your previously-configured DNR-202L, click the **Skip** button.

**Note:** Ensure that cameras have been installed on the network before initiating the DNR-202L setup.

---

# Setup Wizard - Mac OS X

## Step 1:

Connect the included Ethernet cable to the Ethernet port located on the rear panel of the DNR-202L and attach it to your network.

## Step 2:

Connect the power supply to the power connector located on the rear panel of the DNR-202L and connect it to a wall outlet or power strip. Power is confirmed when the blue LED Power Indicator located on the front panel is lit.

## Step 3:

Visit <http://mydlink.com/support> and download the Mac OS Setup Wizard. Open the **SetupWizard** file and launch the Wizard.

SetupWizard

## Step 4:

Double-click the DNR-202L Setup Wizard file to start the Setup Wizard. When the wizard appears, click the **Start** button to begin and follow the instructions to set up your NVR. If you want to add cameras to your previously-configured DNR-202L, click the **Skip** button.

**Note:** Ensure that cameras have been installed on the network before initiating the DNR-202L setup.

# mydlink Portal

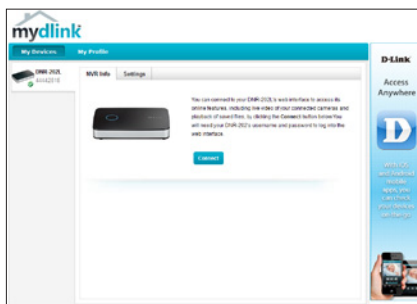

After registering your DNR-202L NVR with a mydlink account in the NVR Setup Wizard, you will be able to remotely access your NVR from the **www.mydlink.com** website. Once you are logged in to your mydlink account, you will see a screen similar the one below. Make sure you have the latest version of Java and Active X.

## Step 1:

Open your web browser and go to **http://www.mydlink.com**, then log in to mydlink portal.

## Step 2:

Select your NVR from the device list and click **Connect**. Enter the user name and password of the DNR-202L that you have set up using the Setup Wizard.

## Step 3:

A new window of your NVR's web interface will appear. Now you can remotely access the live view and playback videos of the connected cameras.

Browser Requirements:  
Java  
Active X

---

## mydlink View - NVR App (Free)

Search for “mydlink View - NVR ” to download and install the app on your smartphone or tablet when connected to the Internet.

System Requirements: iOS version 5.1.1 or above. Android version 4.01 or above.

Once the download has been completed, launch the “mydlink View - NVR” app and log in to your mydlink account. Select your DNR-202L from the device list to access the live video from the connected cameras.

Now you can remotely access the live video, playback recorded videos, and manually enable or disable recording.
