

DMP-110

Portable Audio MP3 Player / Recorder

Up to 120 Minutes of Music Play
or Several Hours of Voice
Quality Audio

The DMP-110 is a USB MP3 Audio Player with voice recording capability. It comes with 32 Mb of total onboard flash memory enabling 60 minutes of continuous digital music playtime. The DMP-110 can be used with external Smart Media Card memory. Unit memory can be expanded to a total of 64 Mb, enabling up to 120 minutes of music play or several hours of voice quality audio.

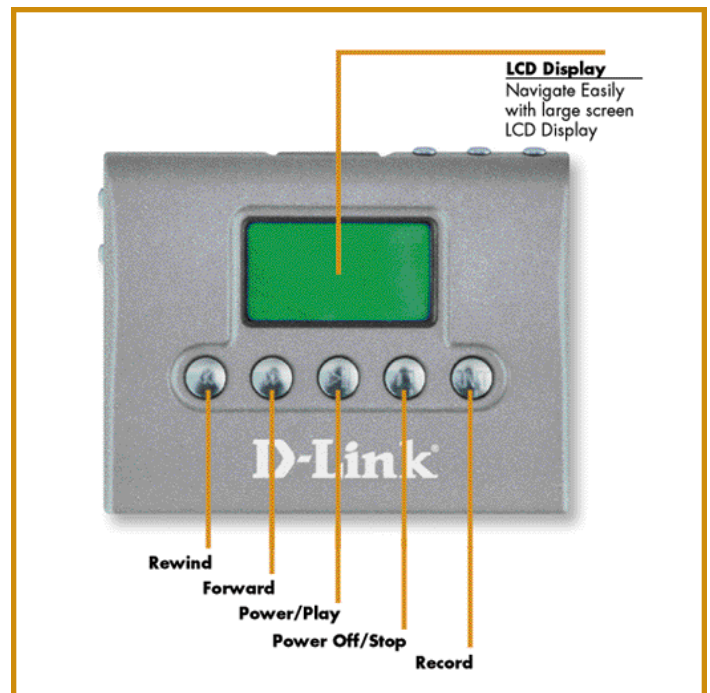

The DMP-110 boasts a friendly graphical interface and a large informative LCD display, allowing the user to easily access the multiple functions of the player. MP3 files can be downloaded from a PC to the DMP-110 using the integrated USB port. USB provides a full 12 Mbps of bandwidth to allow music file transfers at blistering speeds. The DMP-110's lightweight, solid-state design provides a jitter free music environment. Two AAA batteries will give you 10 hours of listening enjoyment.

The D-Link MP3 Manager program easily allows the user to download MP3 files from the Internet to store on the local hard drive, which then can be transferred to the player. Music Match is included to allow users to manage and play MP3 and other audio files on their PC. Additionally Music Match will allow a user to rip CD's from their music collection for storage and playback on their computer or the DMP-110. Bundled Xing Auto Catalyst software can encode .wav files to MP3 format. Internet links to key music and MP3 sites are also included to allow the user to quickly find sources of online music.

The DMP-110 is usable out of the box with included batteries, bundled software, a USB cable, and a belt clip. Plug and Play drivers ensure a fast and easy installation.
