Step 3

- Use the opening tool to pry the back of the laptop case from the top
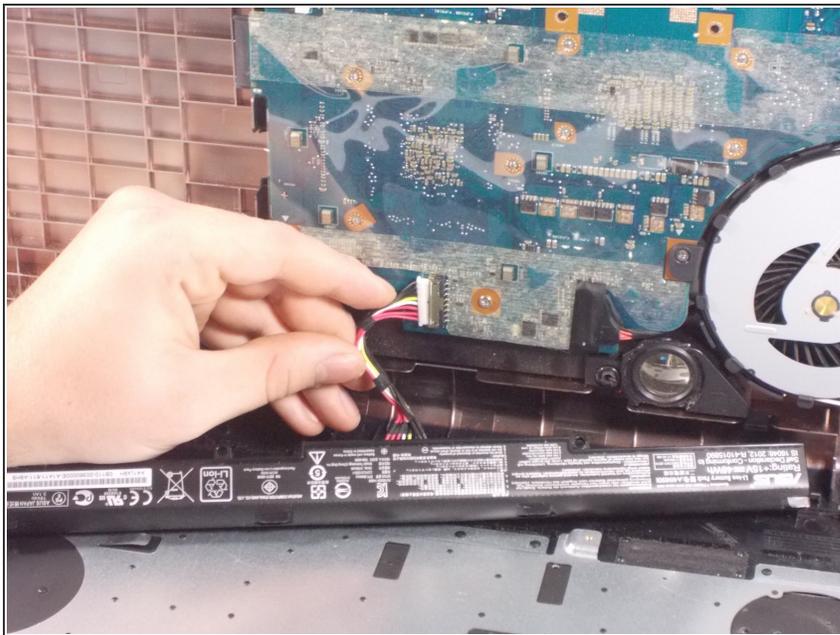

Step 4
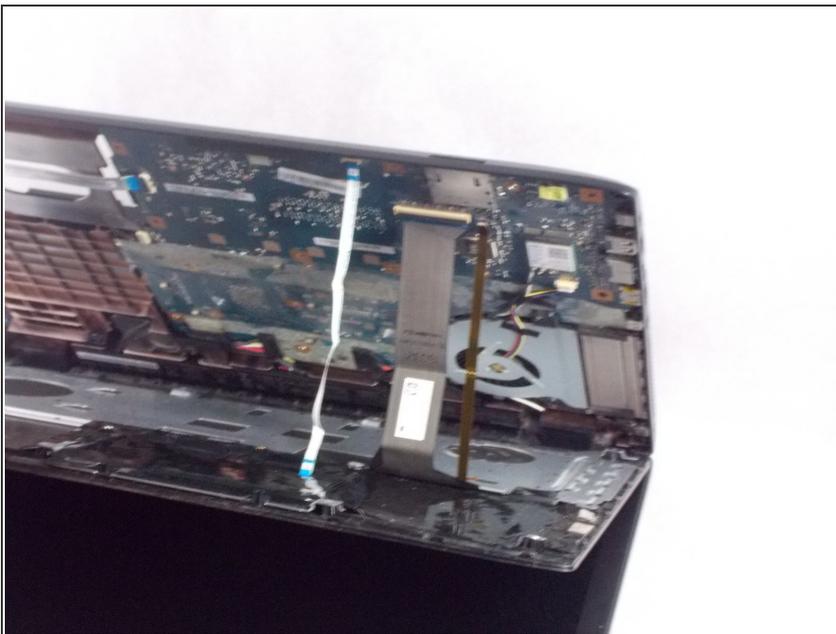

- Disconnect the 3 cables connecting the motherboard to the keyboard.
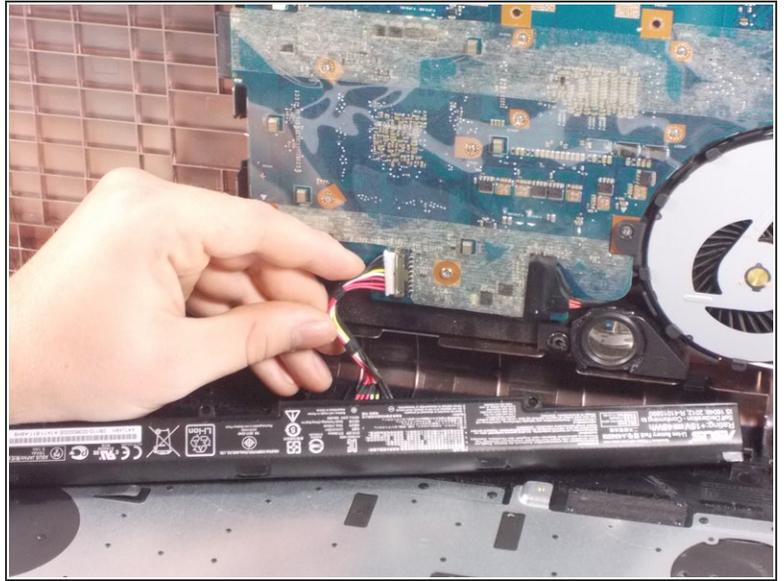

Step 5

- Unscrew the two 8mm screws attached to the battery
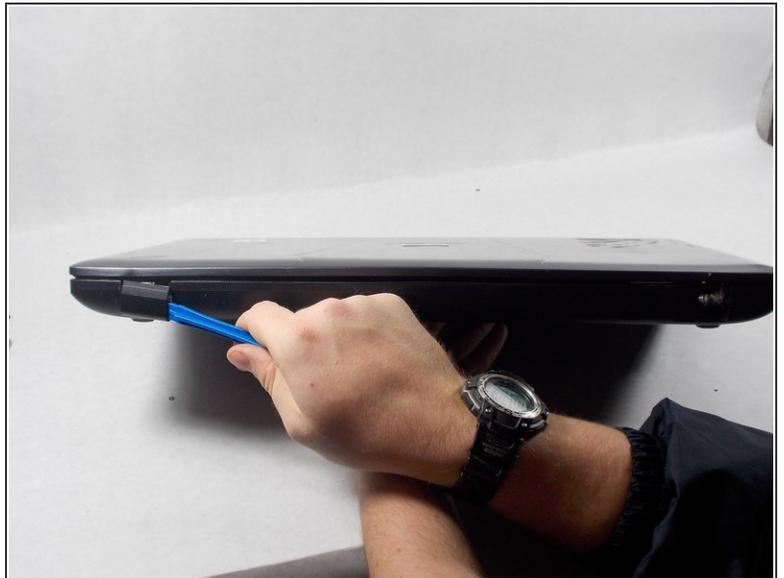

Step 6

- Disconnect the bundled cable connector and remove the battery.

Step 7 — Screen

- Follow the Battery Replacement Guide and remove the battery.

Step 8

- Unhinge the two hinge covers on the back with a unhinging tool.

- ⓘ This is done to ensure the plastic hinge covers are not damaged.
