Compliance with FCC Part 15B
 This device complies with Part 15B of the FCC Rules, which limits the radio frequency energy that is radiated from this device to protect against interference with other devices. This device has been tested and found to comply with the requirements in Part 15B of the FCC Rules. Changes to this device that are not approved by Acer may void the user's authority under the FCC Rules and/or may cause interference to other devices.

Compliance with FCC Part 15C
 This device complies with Part 15C of the FCC Rules, which limits the radio frequency energy that is radiated from this device to protect against interference with other devices. This device has been tested and found to comply with the requirements in Part 15C of the FCC Rules. Changes to this device that are not approved by Acer may void the user's authority under the FCC Rules and/or may cause interference to other devices.

Compliance with FCC Part 15D
 This device complies with Part 15D of the FCC Rules, which limits the radio frequency energy that is radiated from this device to protect against interference with other devices. This device has been tested and found to comply with the requirements in Part 15D of the FCC Rules. Changes to this device that are not approved by Acer may void the user's authority under the FCC Rules and/or may cause interference to other devices.

INTRODUCTION

Prerequisite Only

TOOLS:

- [iFixit Opening Tools](#) (1)
- [Phillips #0 Screwdriver](#) (1)

PARTS:

- [Acer Chromebook C740 Bottom Cover](#) (1)

Step 1 — Back Panel

- Power down the Chromebook and disconnect the power adapter.

Step 2

- Place the chromebook bottom side up on a flat surface.
- Remove the thirteen 7 mm screws with a Phillips #0 screwdriver.

Step 3

- Insert the plastic opening tool into the slit near the hinges and pry upwards to lift the back panel.
 - ⓘ Applying pressure may be necessary. A click indicates the panel is ready to come off.

To reassemble your device, follow these instructions in reverse order.
