This document was generated on 2020-01-10 01:52:42 PM (MST).
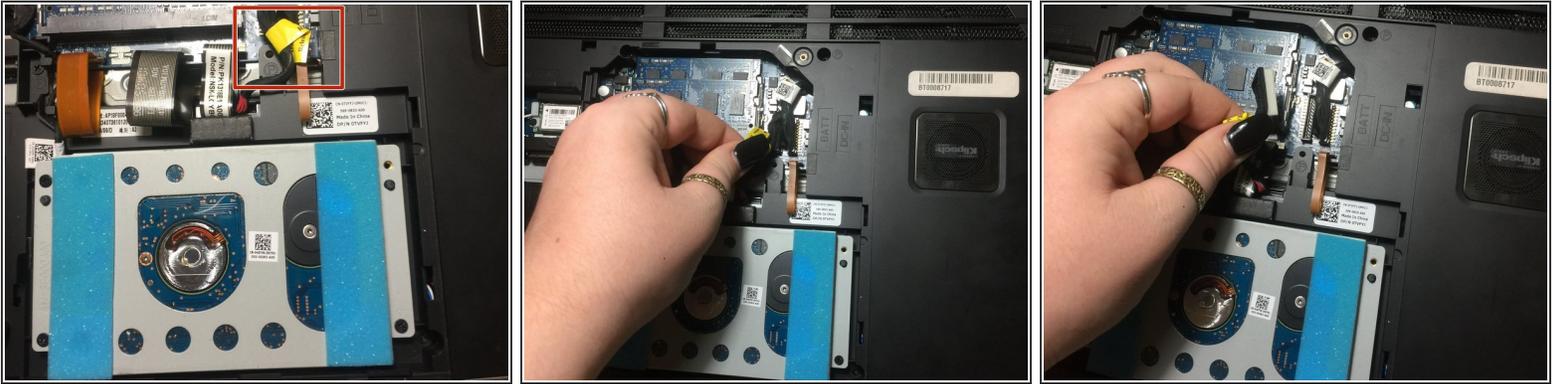

Step 1 — Battery

- Unplug your laptop from power adapter

- Put your laptop face down on a hard surface
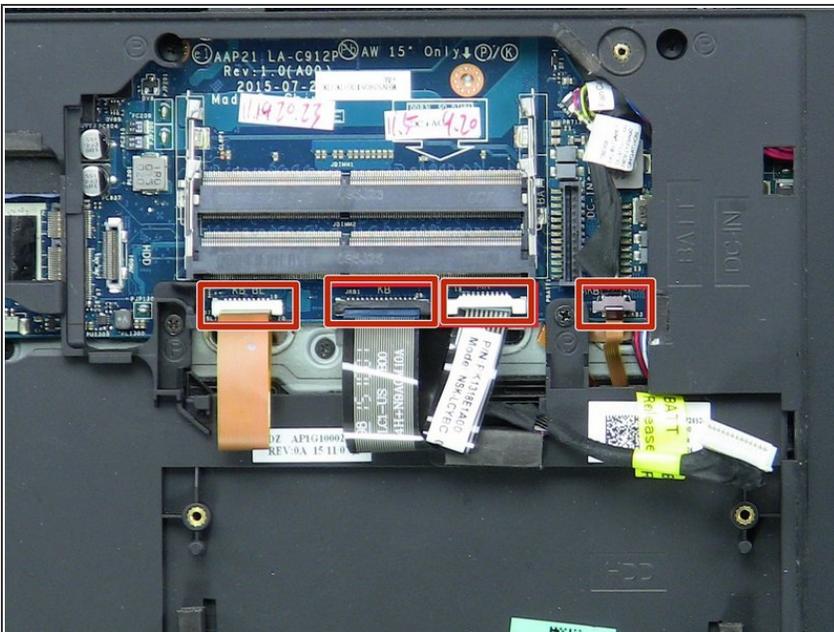

Step 2

- Remove the screws on the access door

- Pull access door up and slide off

Step 3

- Look for the black wire with the yellow tag

- Carefully unplug the black cord with the yellow tag
  - This will successfully disconnect the battery

Step 4

- Disconnect the four cables from the motherboard
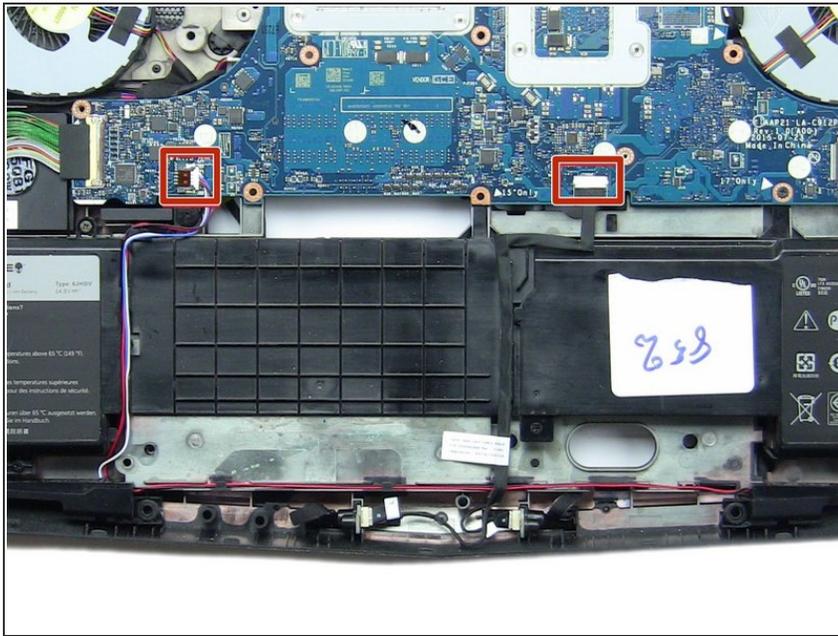

|

Step 5

- Unscrew the palm-rest screws

  - Eight 2.5mm x 8mm

  - Six 2.5mm x 10mm
 - Two 2.5mm x 18mm

Step 6

- Separate the palm-rest from the laptop

- Disconnect the power cord from the laptop to the palm-rest

- Remove palm-rest

Step 7

- Unplug the cables from the laptop

Step 8

2.5mm x 5mm

- Remove the six 2.5mm x 5mm screws that connect the battery to the laptop

- Gently lift up and remove battery

To reassemble your device, follow these instructions in reverse order.
