

Asus Q552UB-BHI7T12 Disk Drive Replacement

This guide will help you replace the disk drive in an Asus Q552UB-BHI7T12 laptop.

Written By: Alexander Boettcher

INTRODUCTION

Be sure is it not the disk that is faulty before replacing the disk drive. If you are having anyother problems with this device check the troubleshooting page [here](#).

TOOLS:

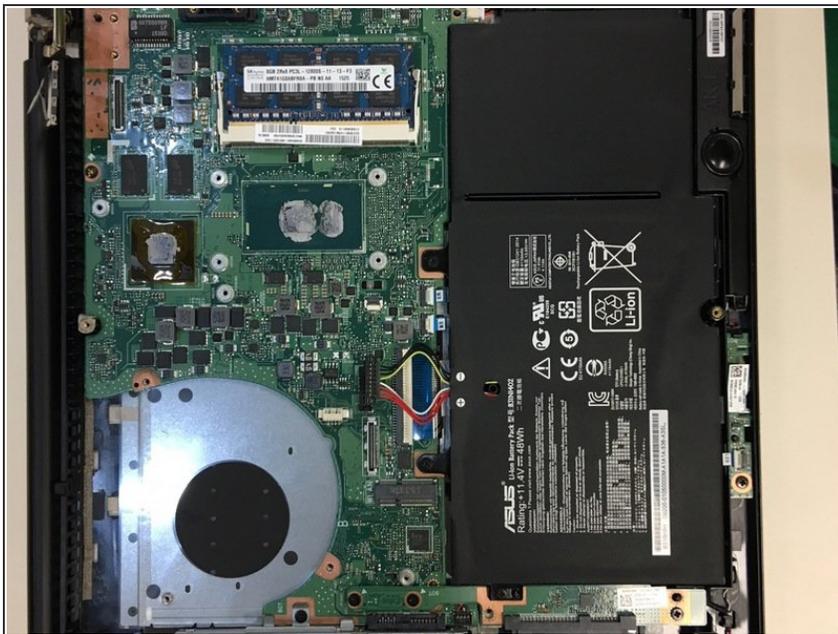

- [Phillips #1 Screwdriver](#) (1)
-

Step 1 — Disk Drive

- Start by removing the 10 screws on the back of the laptop with a Phillips head 1 screw driver.
- Remove back cover.

Step 2

- the battery must be removed so there is no power running to the disk drive. Follow the battery replacement guide [here](#).

Step 3

- Unscrew the one screw on the disk drive with a Philips head screw driver 1.

Step 4

- Slowly slide out the disk drive.

To reassemble your device, follow these instructions in reverse order.
