

Blackberry Curve 8330 Battery Replacement

Replacing a weak or non-functional battery.

Written By: Riley McGovern

INTRODUCTION

This guide is to replace a weak or non-functional battery.

Step 1 — Remove Back Cover

- i** We did not have an actual back cover or battery for the phone we were given. Therefore, the first couple of steps will be without pictures.
- Hold the phone with the back side facing you.
 - Press down on the silver tab towards the bottom end of the phone.
 - Carefully lift up the back casing to reveal the battery.

Step 2 — Remove Battery

- Put your finger on the top left corner of the battery and lift the battery up and out of its housing.
- The phone should now look like this.

To reassemble your device, follow these instructions in reverse order.
