

Carrera Mario Kart 8 Peach Battery Replacement

Does your car not start?

Written By: Jesus Cobas

**TOOLS:**

- [Phillips #00 Screwdriver](#) (1)

**PARTS:**

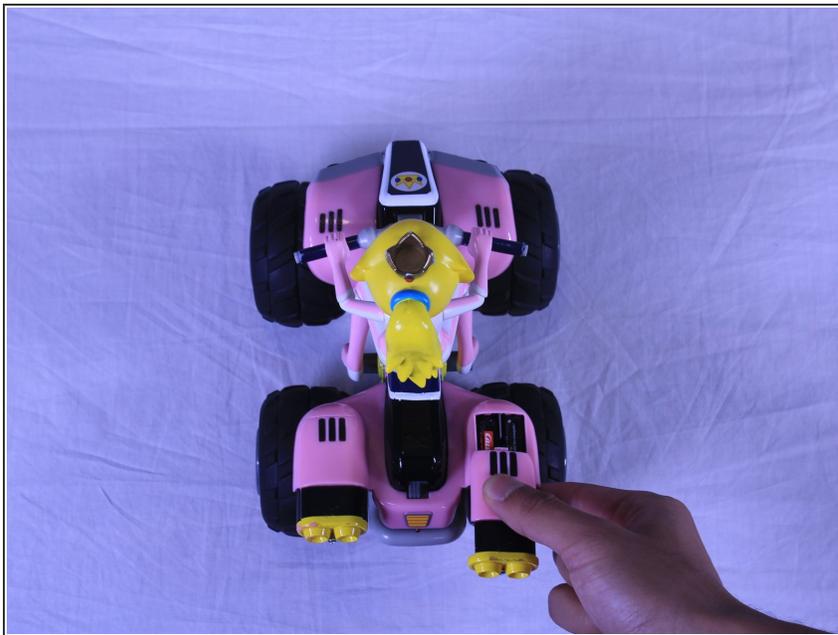

- [AAA Battery](#) (6)

Step 1 — Battery

- Face the car with the tail lights towards you.
- Take off the battery panels by unscrewing the screws, with a Philips screwdriver, on the pair of taillights of the car.

Step 2

- Slide out the tail lights and set aside.

Step 3

- Remove the old batteries by using a plastic opening tool.
- Dispose of the batteries properly.

To reassemble your device, follow these instructions in reverse order.
