

# Conair Infiniti PRO Curling Iron Power Cord Replacement

This guide will instruct on how to remove the power cord from the curling iron for replacement

Written By: Jonathon Bruer

## INTRODUCTION

This guide requires the removal of the housing which takes some time and work. However, after this the removal and replacement of the power cord is really simple.

---

### TOOLS:

- [Phillips #1 Screwdriver](#) (1)
  - [Spudger](#) (1)
-

## Step 1 — Housing

- Remove the Philips #1 28 mm.

⚠ Make sure device is unplugged and cool before attempting to replace parts.

## Step 2

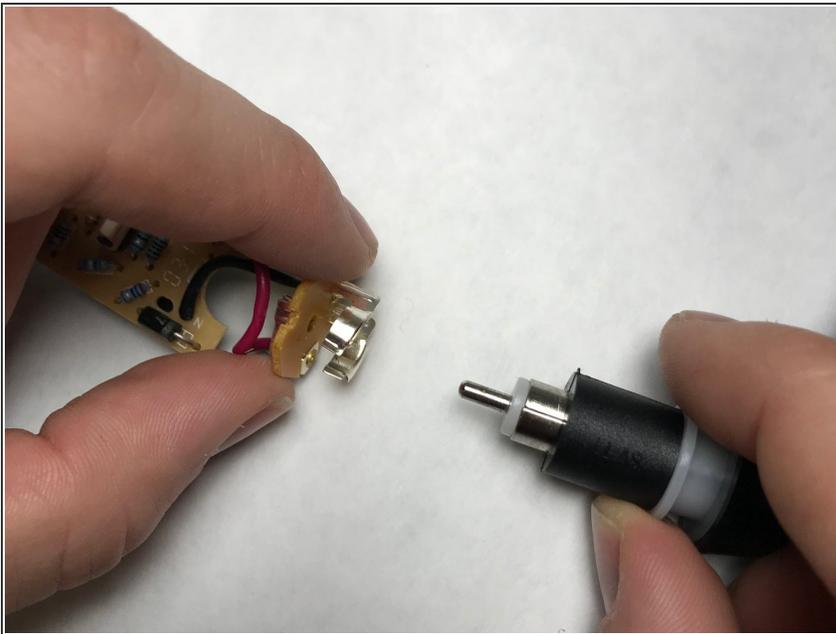

- Remove the Philips #1 22 mm screws.

### Step 3

- Pry off the housing using a plastic spudger.

### Step 4 — Power Cord

- Pull power chord out.

To reassemble your device, follow these instructions in reverse order.
