Step 1 — Deloitte PL-4238 Pocket Mini-Speaker Teardown

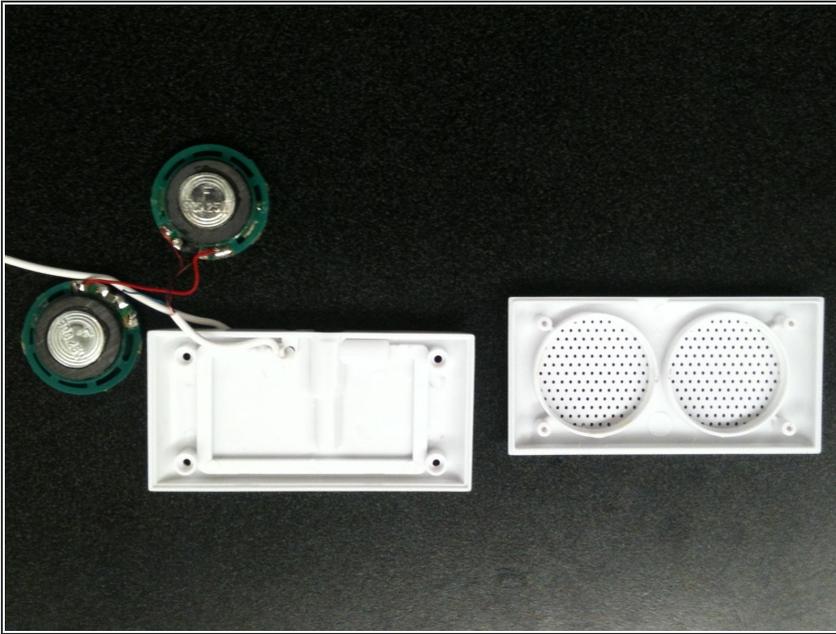

- There are 4x 2.5mm Phillips screws holding the casing together.
- Unscrew all four screws, and lift the back cover off.

Step 2

- You now have full access to all the wiring to the speakers.
- If you need to remove the speakers, there is a little bit of glue holding them in place. You can lift them out with your finger or flat headed screw driver.

Step 3

- This concludes the teardown of the Deloitte PL-4238 Pocket Mini-Speaker
