

FAO Schwarz Apex 1 Remote Control Wheel Replacement

Replace a faulty wheel on the remote controller for the FAO Schwarz Apex 1 to restore control of the device.

Written By: April Wilson

INTRODUCTION

Is the wheel on the remote control of your FAO Schwarz Apex 1 malfunctioning or damaged? If so, this guide will help you replace the wheel on the remote control. Fixing a faulty wheel on the remote controller does not require any tools.

TOOLS:

- [JIS #1](#) (1)
-

Step 1 — Remote Control Wheel

- Place the remote controller on a firm surface.
- Use a JIS #1 screwdriver to unscrew the single 11 mm screw in the center of the black wheel.

Step 2

- Pull the wheel away from the remote controller.

To reassemble your device, follow these instructions in reverse order.
