Step 1 — Volume / Power Button

⚠ Make sure the device is off and not plugged in before starting.

● Use the T5 Torx screwdriver and remove the T5x3mm screws on all four corners of the device.
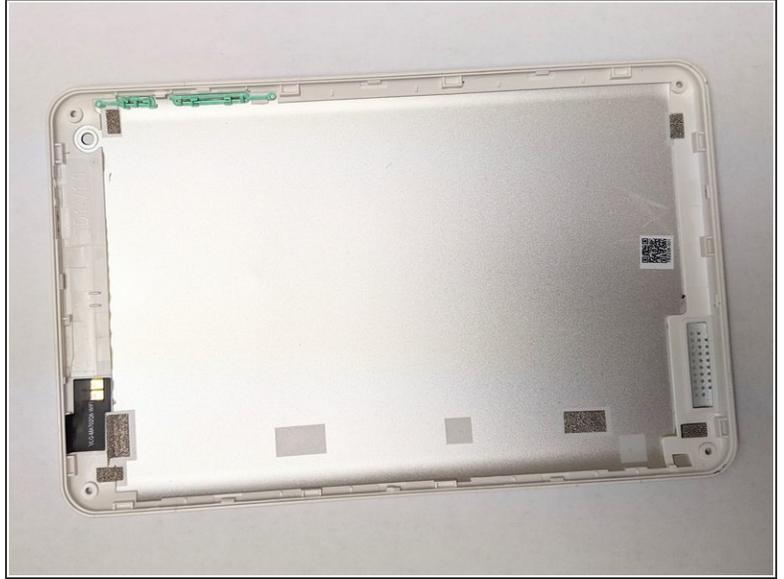

Step 2

- Using the plastic opening tool, push in between the front, then slide it around.

- Slide the plastic opening tool all the way around the tablet to separate the back cover.

⚠ Be careful when trying to remove the back as the screen can be damaged with excessive force.

Step 3

- Continue sliding the plastic opening tool around the tablet until the cover fully separates from the device.

- Remove the back cover.

Step 4

- The power and volume buttons are on the side of the device. Locate these buttons to begin the replacement process.

Step 5

- Gently push out the power and volume buttons with tweezers.

To reassemble your device, follow these instructions in reverse order.
