

HP Pavilion g7-1365dx Battery Replacement

How to replace the battery in an HP Pavilion g7-1365dx or remove it for more involved replacements.

Written By: Colin Klaes

INTRODUCTION

This guide will give step by step instructions on how to remove and replace a battery in an HP Pavilion g7-1365dx. Use this guide if you're having issues with a battery that is either not charging, or not holding a charge for long. This guide can also be used as a prerequisite guide for more involved replacements.

PARTS:

- [HP MU09XL Replacement Laptop Battery](#) (1)
-

Step 1 — Battery

- ⚠ To prevent injury, make sure the laptop is powered off before removing the battery.
- Flip the laptop so that it is upside down and opens away from you. This exposes the battery, it will be centered at the bottom of the laptop .
- Push the switch above the battery towards the center of the laptop .

Step 2

- While pushing the switch, lift the battery by the side closest to the switch up and away from the laptop.

To reassemble your device, follow these instructions in reverse order.
