INTRODUCTION

After years of use, you might need to replace the Klickfix mounting plate on your Aqua Box. It just takes a few steps—read on to find out how.

TOOLS:

- [Phillips #2 Screwdriver](#) (1)
- [Macro Bit Set](#) (1)

PARTS:

- [Klickfix Mounting Plate](#) (1)

Step 1 — Klickfix mounting plate

- Loosen all 4 screws on the mounting plate by holding the nuts on the outside with a socket wrench #7 and unscrewing the screws with a standard Phillips #2 screwdriver.

Step 2

- Replace the defective plate with the new plate.

To finish the repair follow the instructions in reverse order.
