

Huawei Ascend G700 Battery Replacement

It is shown how the battery is swapped

Written By: Leonard Kesting

**TOOLS:**

- Spudger (1)

**PARTS:**

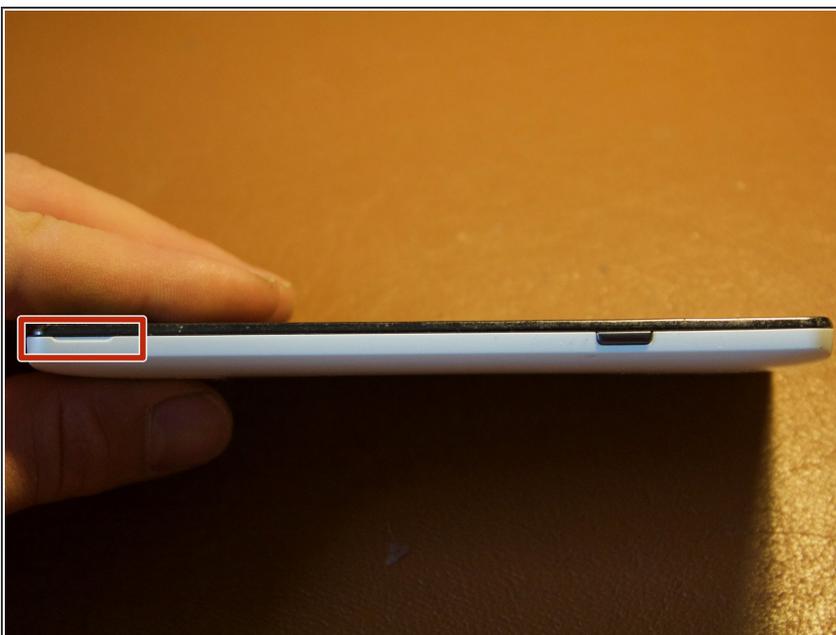

- New Item (1)
3,8V 2150mAh

Step 1 — Preparation

- Disconnect all connected devices (such as headphones and USB chargers).
- Turn the device off.
- Turn the device around.

Step 2

- On the same side as the powerbutton is a little notch. Using it you will have to carefully remove the back cover.
- Use a small prying tool if you can't do this with your fingers.

Step 3

- Now you can remove the battery, that has to be pried off in the marked location.

Follow the steps in reverse order to put everything back together.
