# Lenovo ThinkPad Helix Battery Replacement

This guide will help you replace a ThinkPad Helix battery step by step.

Written By: Manuel Parra Rocha

INTRODUCTION

This guide provides information on how to replace a Lenovo ThinkPad Helix battery.

Replacing a battery is essential to keep your device on and running for use. When following these steps remeber to maintain a safe work space and a place to store screws that way you do not lose anything.

Lenovo adds that; "Use only the authorized battery specified for your tablet. Any other battery could ignite or explode." This is essential to keep you and your device safe, intact and usable.
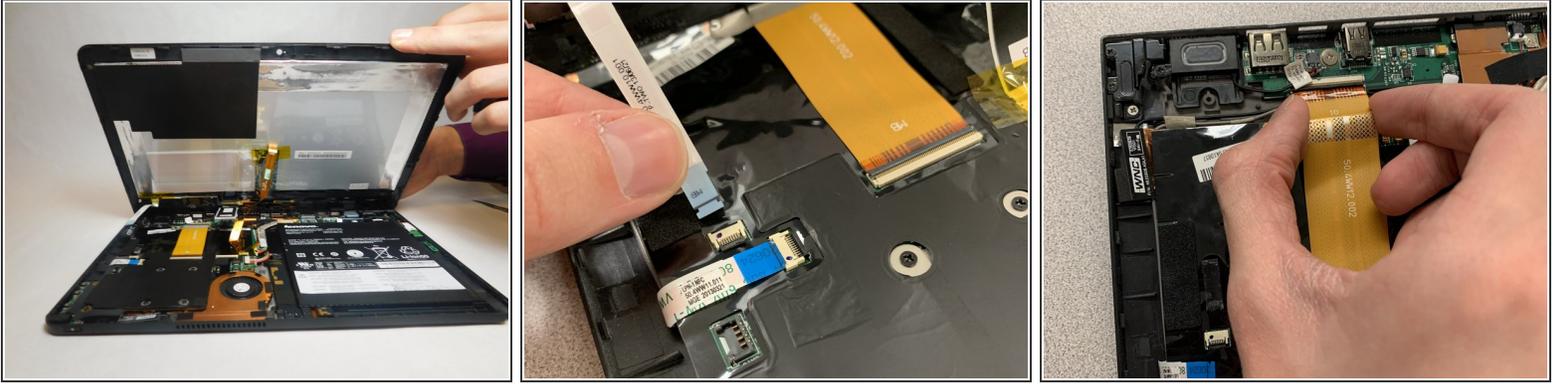

🔧 TOOLS:

- iFixit Opening Tools (1)
- Phillips #0 Screwdriver (1)

Step 1 — Screen

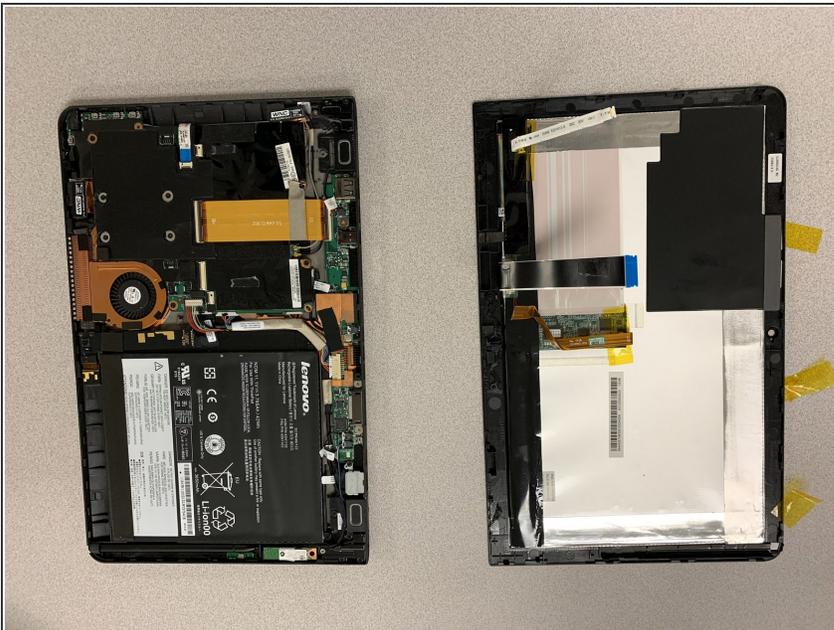

- Using a plastic opening tool or opening pick, gently pry the screen off.

⚠️ If possible, use plastic tools to pry the screen, as the metal tool as shown in the image can potentially damage your device.

ⓘ You will need to use a little bit of force to pry it open. There is little indent that goes around the tablet. You will insert your tool between this indent and pry it open.

- Once you're able to lift a little bit of the screen away from the tablet, work your way around until screen is separated from tablet. Stop for step two.
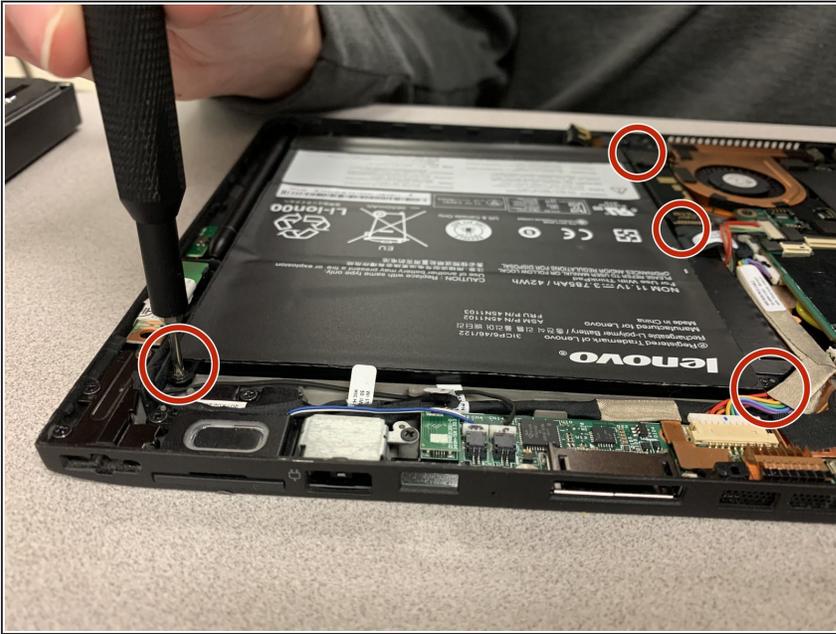

Step 2

- Lift the screen up slowly.

- (i) Once separated, you can not fully take it off due to some cable connections.

- Open the clips of the ZIF connectors and gently grab the cable to pull it out.

Step 3

- Once the cables are disconnected, remove the screen.

Step 4 — Battery

- Using a Phillips #00 screwdriver, unscrew the four nylon-coated 3 mm screws holding the battery in place.

Step 5

- Disconnect the battery cable from the motherboard.

- Lift the battery out of the device.
