

Mac mini Late 2018 Bottom Cover Replacement

Remove or replace the large plastic circular foot covering the bottom of the Mac mini.

Written By: Jeff Suovanen

INTRODUCTION

Use this guide to easily remove or replace the plastic bottom cover on your Mac mini.

TOOLS:

- [iFixit Opening Tools](#) (1)
-

Step 1 — Bottom Cover

 Power off and unplug your Mac mini before you begin.

- Use an opening tool to pry the bottom cover up off of the Mac mini.

Step 2

- Lift and remove the bottom cover.
- ☛ To reinstall the cover:
- Align it carefully so that the words "Mac mini" can be read when the ports are facing you.
 - Then, press down on the cover to snap its three hidden clips into place.

To reassemble your device, follow these instructions in reverse order.
