A guide detailing the replacement procedure for the Ninja Coffee Bar CF086 Brew-Through Carafe Lid.

Written By: David Ton

INTRODUCTION

The brew-through carafe lid enables brewing with the lid attached. The finished coffee should sustain minimal temperature loss and can be poured through the lid. This guide describes how to replace it properly.

Step 1 — Brew-Through Carafe Lid

 Make sure the Ninja Coffee Bar is unplugged.

- Remove the carafe.

Step 2

- Twist the brew-through carafe lid counterclockwise to remove it.

To reassemble your device, follow these instructions in reverse order.
