

Nokia Lumia 900 Screen Replacement

This guide will show you how to replace your screen.

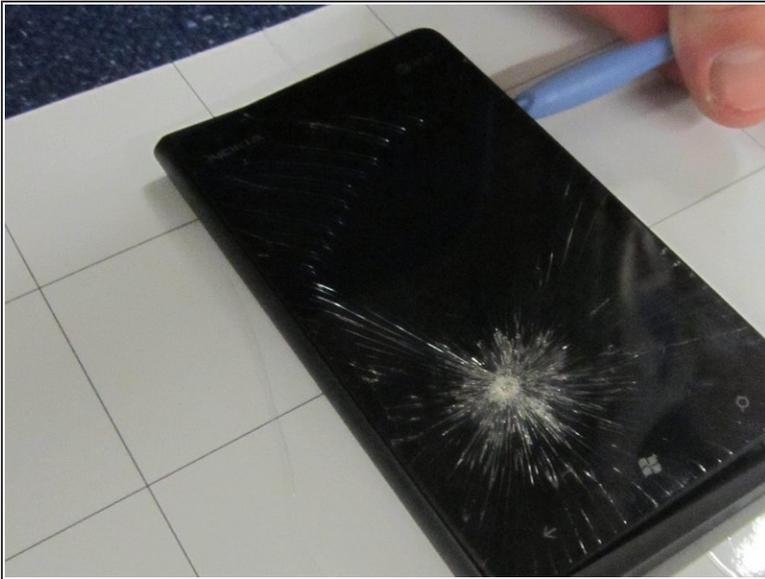

Written By: Joshua Crosman

TOOLS:

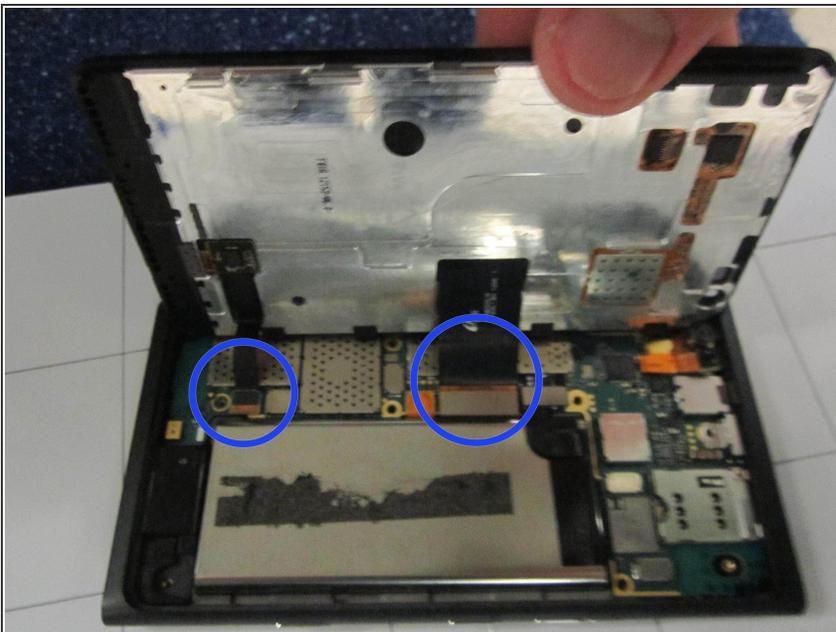

- [iFixit Opening Tools](#) (1)
-

Step 1 — Opening The Phone

- Remove the Sim card tray and locking bar, before applying pressure to to the top right corner of the plastic casing.
- Using the opening tool, pry the screen from the casing until they are separated from each other.

Step 2 — Detaching Screen Connectors

- Detach both ribbon connectors from the logic board.

Step 3 — Attach New Screen

- Attach new screen connectors to logic board
- Slide the hinges of the left side of the screen under the left side of the plastic case
- Clamp the right side of the screen down and make sure screen is flat
- The screen should "click" into place

To reassemble your device, follow these instructions in reverse order.
