

Ring Spotlight Cam Battery The Mounting Bracket Replacement

This guide will help replace the Mounting Bracket in order to attach the camera on the wall.

Written By: Smoo Rena

INTRODUCTION

If your Mounting Bracket is broken or you need to replace it, then you will need to follow these steps to effectively replace the Mounting Bracket.

TOOLS:

- [Phillips #1 Screwdriver](#) (1)
-

Step 1 — The Mounting Bracket

- Place Mounting Bracket with lower elevation facing towards you.

Step 2

- Use a Phillips #1 screwdriver to unscrew the single bracket screw.

Step 3

- Hold two corners from the middle of bracket and stretch outward.

Step 4

- Slide bracket upwards.

To reassemble your device, follow these instructions in reverse order.
