This guide will help you take the rear case of of your Samsung Galaxy Tab E Lite 7 Kids. Be careful when applying force as to not damage anything.

---

### TOOLS:

- [iFixit Opening Tools](#) (1)
-

## Step 1 — Rear Case

 Make sure the device is turned off before attempting to disassemble it.

- Using a plastic opening tool, wedge in the seam between the screen and the case.
- Rock the tool by moving it towards and away from the middle of the screen, trying to separate the tape holding the screen and case together.

## Step 2

- After separating the latches holding the screen and case together, slowly take the screen off the case.

To reassemble your device, follow these instructions in reverse order.
