Step 5

- Grasp the side of the hard drive opposite the circular battery, and carefully pull out the drive by moving it away from the circular battery.
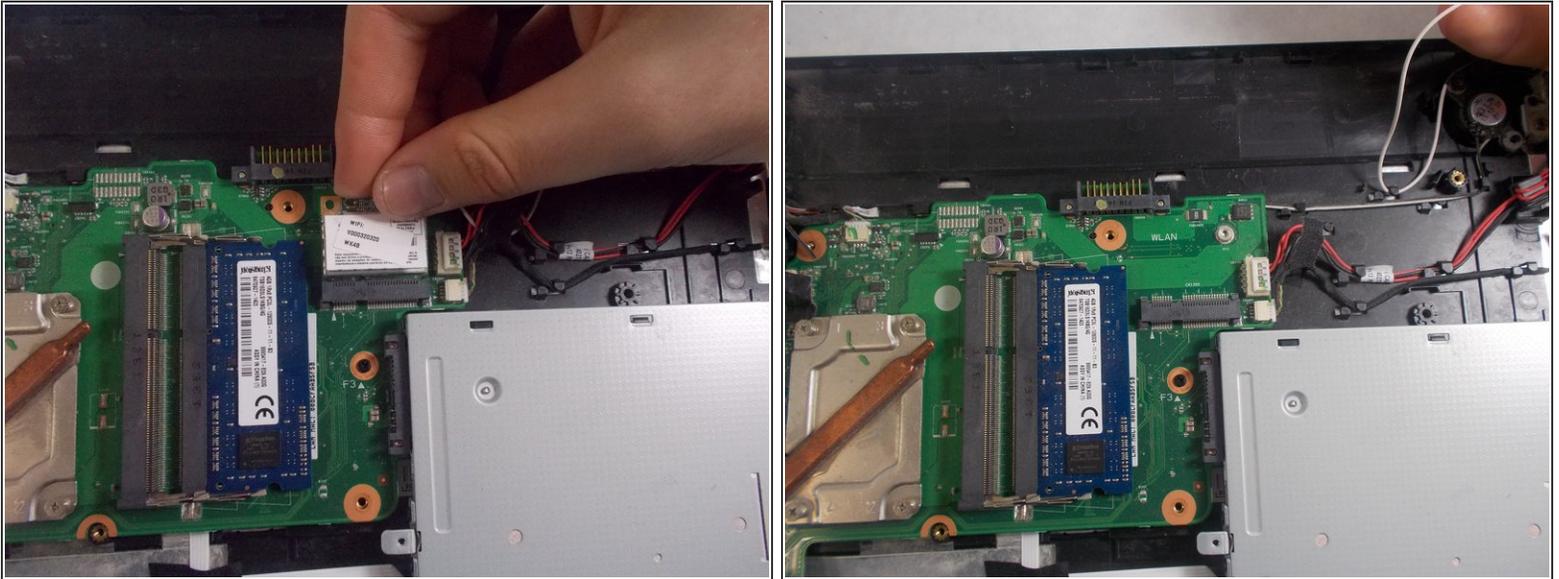

Step 6 — Back Cover

- Remove the 16 screws holding the back cover with a Phillips #0 screwdriver.

- Pry the cover off with an opening tool.

- Gently remove the cover with your hands and place to the side.

Step 7 — Wi-Fi Card

- Remove the single screw securing the Wi-Fi card using a Phillips #0 screwdriver.

Step 8

- The card will pop up; gently pull the card out of the port.

- Unplug the wireless antenna cables attached to the card.

- ⚲ Remember how the cables were connected to assure you do not cross the Bluetooth and wireless connections by accident.

To reassemble your device, follow these instructions in reverse order.
