Toshiba Satellite L455-S5046 Battery Replacement

How to replace the battery of the Toshiba Satellite L455-S5046. This needs to be replaced if your computer will not hold a charge, or will not turn on.
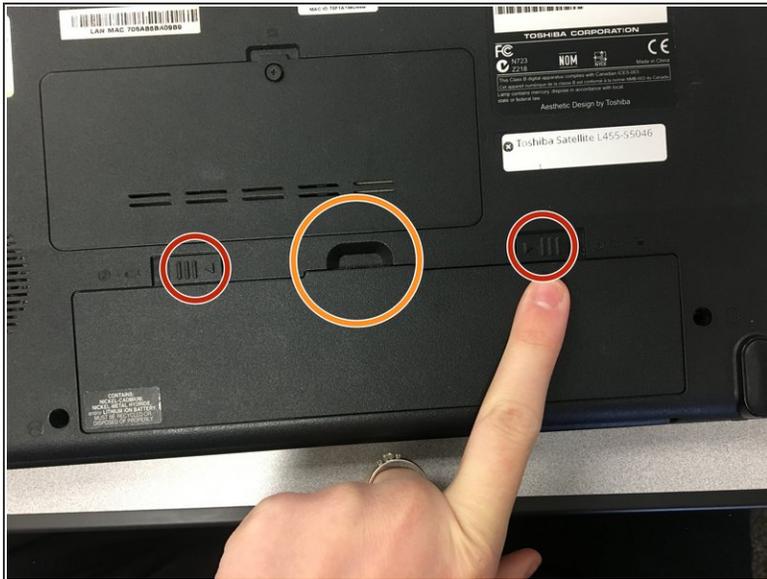

Written By: Daryl Spurgeon

INTRODUCTION

In this guide we will be teaching you how to change the battery. You will need a replacement battery that was designed specifically for the Toshiba Satellite L455-S5046. No other tools are required.

This document was generated on 2019-10-16 08:28:05 AM (MST).

Step 1 — Battery

- Find the battery on the back of the computer. Slide both tabs outward towards the side of the laptop and the battery will come loose.

- Insert your finger under the middle tab and lift the battery out.

You should now have a new battery placed in your computer.
