

Toshiba Satellite Radius P55W-B5220 Back Cover Replacement

This guide will demonstrate how to take off the back cover of the Toshiba Satellite Radius P55W-B5220.

Written By: Devin Boski

INTRODUCTION

We will show you how to remove the back cover, so the computer's internal components are visible.

TOOLS:

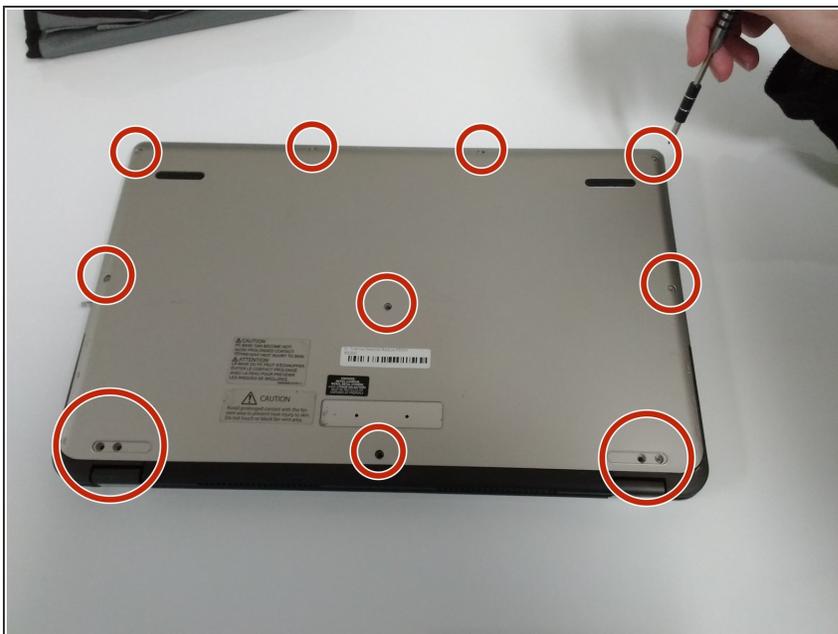

- [Phillips #0 Screwdriver](#) (1)
 - [iFixit Opening Tools](#) (1)
-

Step 1 — Back Cover

- ⓘ Turn off the laptop before starting.
- Remove the two rubber feet closest to the hinge with a plastic opening tool.

Step 2

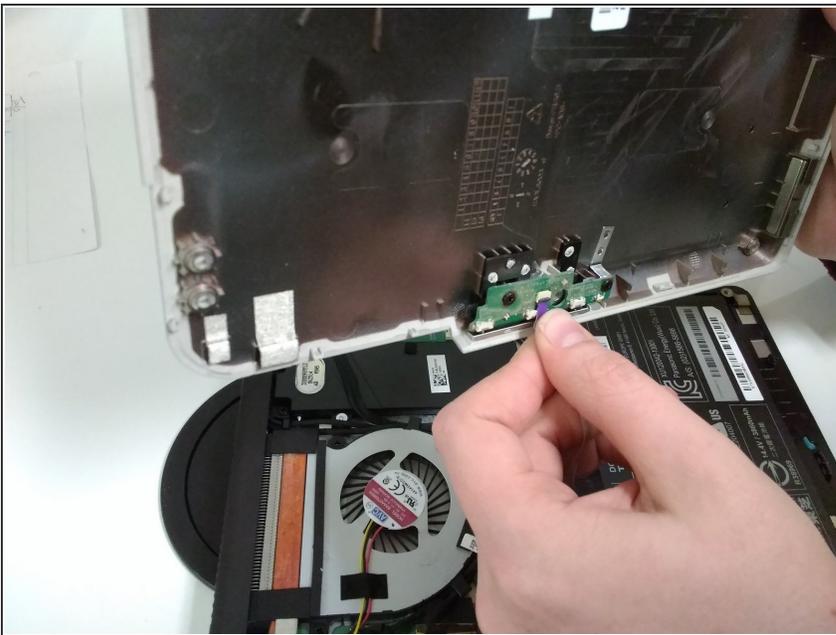

- Remove the twelve M2x4mm PH0 Philips head screws.

Step 3

- Loosen the back cover with a plastic opening tool.
- ⓘ The least damaging way to pry the cover is to start from a corner and run the spudger along the edge.
- ⚠ Do not crack or bend the cover.

Step 4

- Carefully lift open the cover.
- Remove the attached purple ribbon cable underneath the cover.
- ⚠ Do not rip the ribbon cable.

To reassemble your device, follow these instructions in reverse order.
