

iRobot Roomba 891 Side Brush Replacement

This guide will walk you through the easy process of replacing the side brush.

Written By: Justin Tolin

INTRODUCTION

This guide is simple and the required tools are so common that you probably have one in your house right now. The parts are available from numerous online retailers.

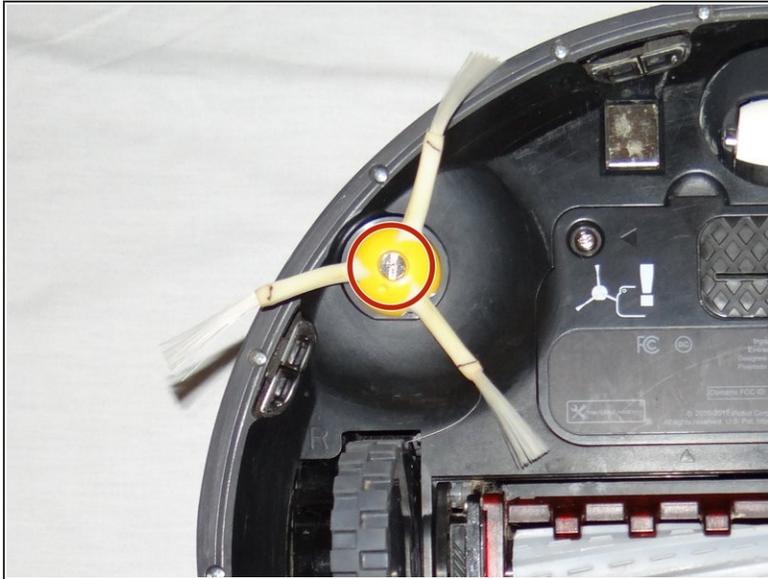

TOOLS:

- [Flathead 3/32" or 2.5 mm Screwdriver \(1\)](#)

PARTS:

- [Roomba 800 and 900 Series Side Brush \(1\)](#)

Step 1 — Side Brush

- Remove the 7.5mm flat head #4 screw from center of the side brush.

Step 2

- Gently pull the side brush off of the motor hub.

To reassemble your device, follow these instructions in reverse order.
